Peer Teaching Activity

Information Technology department has organized the “Peer Teaching Activity” on 13 May 2022. The activity was conducted by our brilliant gem Abhishek Karpe. There is a wealth of evidence that peer teaching is extremely effective for a wide range of goals, content, and students of different levels and personalities. “Help from peers increases learning both for the students being helped as well as for those giving the help. “Peer teaching can enhance learning by enabling learners to take responsibility for structure; filling in the gaps; finding additional meanings; and reformulating knowledge into new reviewing, organizing, and consolidating existing knowledge and material; understanding its basic conceptual frameworks.
