

## 1.2.1- Number of Certificate/Value added courses offered and online courses of MOOCs, SWAYAM, NPTEL etc. (where the students of the institution have enrolled and successfully completed during the last five years)

**Findings of DVV:** Provide Summary report of (Online Workshop on PLC and SCADA Automation Online Workshop on Home Automation Expert Lecture & online demonstration of a Personal Portfolio Website Webinar On Flutter Expert Lecture on —Recent trends in engineering & technology Software Engineering & Project Management to Implement Step by step Process of Project Seminar On Asynchronous Programming Online Virtual Tour to Tetrapack Pvt. Ltd. Digital Skill for Professionals Digitization In Industries ) along with duration and list of students enrolled.

### **Clarification for findings of DVV:**

Summary reports of the following are attached herewith, along with duration and list of students enrolled.:

- Online Workshop on PLC and SCADA Automation
- Online Workshop on Home Automation
- Expert Lecture & online demonstration of a Personal Portfolio Website
- Webinar On Flutter
- Expert Lecture on —Recent trends in engineering & technology
- Software Engineering & Project Management to Implement Step by step Process of Project
- Seminar On Asynchronous Programming
- Online Virtual Tour to Tetrapack Pvt. Ltd.
- Digital Skill for Professionals
- Digitization In Industries.

**Vision:** "To Satisfy the aspirations of youth force, who want to lead the nation towards prosperity through techno-economic development"

**Mission:** "To provide, nurture and maintain an environment of high academic excellence, research and entrepreneurship For all aspiring Students, which will prepare them to face global challenges maintaining high ethical and moral Standards"

## **DEPARTMENT OF ELECTRICAL ENGINEERING**

### **ONLINE WORKSHOP 2020-21 REPORT**

Electrical Engineering department, BSIOTR has hosted two week Online workshop on PLC based automation projects( Home Automation) for the students of Electrical Department BSIOTR, Wagholi, Pune from 1<sup>st</sup> February 2021 to 16<sup>th</sup> February 2021. The inauguration of the workshop was done by Dr. T. K Nagaraj , principal BSIOTR ,Wagholi pune and the vote of thanks was given by prof. Nitesh Anwat co-ordinator of the workshop. The workshop was conducted per day two hours in online mode through Google meet so to get training and to develop the concept of Programmable Logic Controller (PLC) For Home Automation.

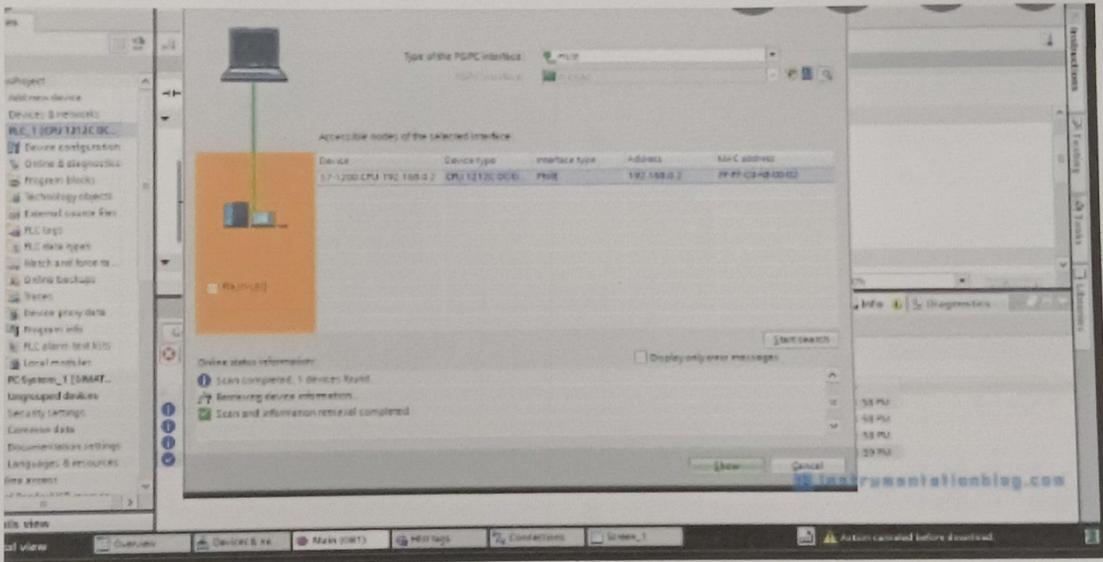

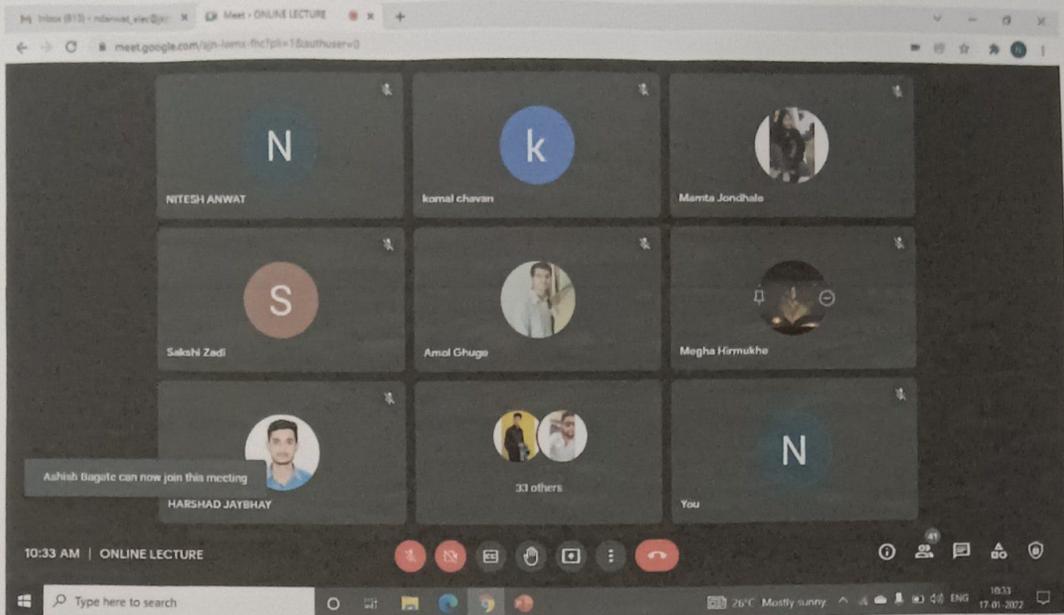

The resource person for the workshop was Mr. Vivek E. Tandale Project manager at Johnson Control Centre of Engineering , Pune . The workshop was conducted for BE students and they enjoyed the home automation through PLC. The expert gave introduction of PLC .He explained what exactly it is ,who invented it & other history, different modules of the PLC controllers , classification of PLC, Various programming techniques and the logic used. This workshop also helps the student to enter in industry and improve their approach towards practical problems raised in the industry. The workshop proved to be fruitful enough for final year student who got to know about new techniques are that are actually practiced in industries.

### **ONLINE WORKSHOP 2020-21 REPORT**

Electrical Engineering department, BSIOTR has hosted Online workshop on PLC & SCADA Automation for the students of Electrical Department & BSIOTR, Wagholi, Pune from 2<sup>nd</sup> November 2020 to 20<sup>th</sup> November 2020. The inauguration of the workshop was done by Dr. T. K Nagaraj , principal BSIOTR ,Wagholi pune. Workshop start with the introductory speech by Dr. N. N. Ghuge, HOD, Department of Electrical Engineering, BSIOTR, Wagholi, Pune. The vote of thanks was given by prof. Nitesh Anwat co-ordinator of the workshop. The workshop was conducted per day two hours in online mode through Google meet so to get training and develop the concept of PLC & SCADA Automation. The automation is an ever evolving domain, which requires constant innovation & technology advancement.

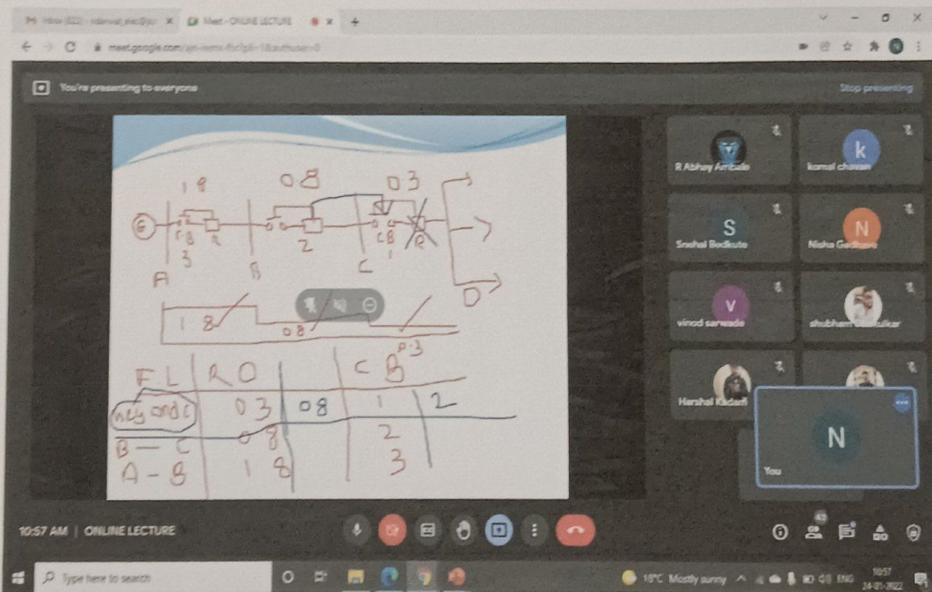

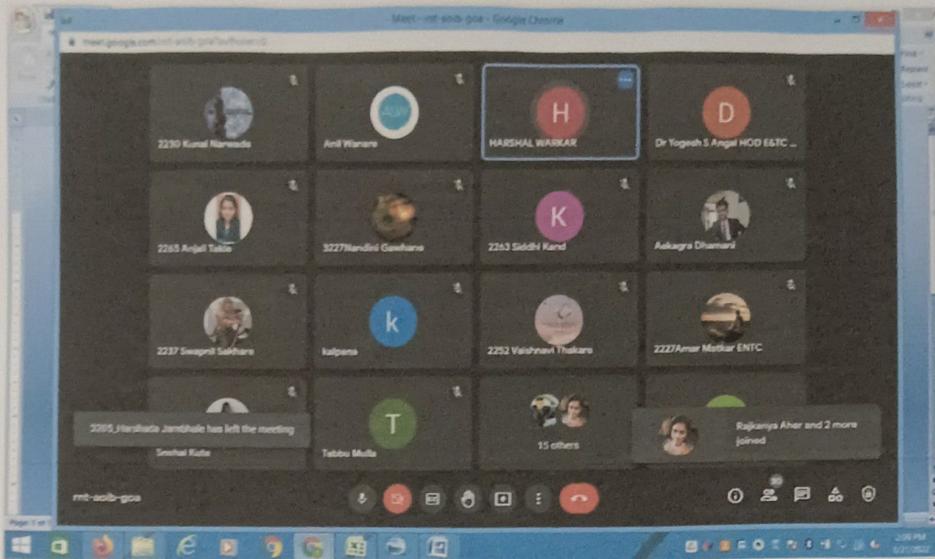

The resource person for the workshop was Mr. Prashant Bhogale ,Project Manager at Honeywell .The workshop was conducted for BE students and they enjoyed the automation through PLC & SCADA .This workshop also helps the student to enter in industry and improve their approach towards practical problems raised in the industry. The first session covered introduction to the techniques of automation and names of large scaled PLCs used in industries. The workshop proved to be fruitful enough for final year student who got to know about new techniques are that are actually practiced in industries.

**Title: Successful Webinar on Building Personal Portfolio Websites Empowers 2nd Year IT Engineering Students.** A four-hour online webinar on building personal portfolio websites for 2nd-year IT engineering students was conducted with great success. The event aimed to equip students with essential skills to create an impressive online presence. Renowned IT professional, Mr. Panchashil Wankhede, served as the resource person, sharing valuable insights and expertise.

**Vision:** "To Satisfy the aspirations of youth force, who want to lead the nation towards prosperity through techno-economic development"

**Mission:** "To provide, nurture and maintain an environment of high academic excellence, research and entrepreneurship For all aspiring Students, which will prepare them to face global challenges maintaining high ethical and moral Standards"

### Department of Information Technology

With a total of 80 students enrolling for the program, the event witnessed an impressive turnout, with 62 actively participating in the webinar. Mr. Wankhede guided students through the intricacies of designing and developing their personal portfolio websites, emphasizing the importance of showcasing skills and projects effectively.

The interactive session allowed students to pose questions, fostering a dynamic learning environment. The event concluded with positive feedback from attendees, expressing gratitude for the valuable knowledge gained. The success of this webinar highlights the growing importance of empowering IT engineering students with practical skills for their professional journey.

**Title: Insightful Webinar on Flutter Empowers Final Year IT Engineering Students.** A four-hour online webinar on Flutter, a popular framework for cross-platform app development, was conducted for final-year IT engineering students. Prof. Deepali Shinkar, an esteemed faculty member from the in-house department, served as the knowledgeable resource person, guiding students through the intricacies of Flutter and its applications.

**Vision:** "To Satisfy the aspirations of youth force, who want to lead the nation towards prosperity through techno-economic development"

**Mission:** "To provide, nurture and maintain an environment of high academic excellence, research and entrepreneurship For all aspiring Students, which will prepare them to face global challenges maintaining high ethical and moral Standards"

## Department of Information Technology

The event, held on 20th August 2020, saw enthusiastic participation, with 60 students enrolling and 54 actively attending the program. Prof. Shinkar provided a comprehensive overview of Flutter, covering topics such as widget-based development, hot reload functionality, and its advantages in creating robust and dynamic mobile applications.

The interactive session allowed students to ask questions and engage in discussions, enhancing their understanding of Flutter's capabilities. Positive feedback from attendees emphasized the event's success in equipping final-year IT engineering students with practical knowledge and skills relevant to the ever-evolving field of mobile app development. The webinar effectively bridged the gap between theoretical concepts and hands-on application, preparing students for future challenges in the IT industry.

Conducted on 15th March 2020 in an online mode, the event was meticulously designed to simulate an immersive tour experience, offering insights into the company's software development processes and technological infrastructure. The total duration of the virtual tour was two hours, during which 80 students actively participated.

Mr. Kulkarni shared valuable knowledge about the challenges and innovations within Tetra Pak Pvt. Ltd., fostering a deep understanding of real-world industry practices. The interactive session allowed students to engage in discussions and gain firsthand insights into the daily operations of a leading technology company. The event received positive feedback, with attendees expressing appreciation for the unique learning experience that broadened their perspective on the IT industry.

## Summary Report of Add-on course on “Digital skill Development for Professionals” (Six Days: 40 Hours) DEPARTMENT OF E&TC ENGG.

### Day One: 07/12/2020

Objective	Digital skill Development for Professionals
Date of Conduction	07/12/2020 to 12/12/2020
Program Coordinator	Dr.Yogesh S. Angal
Slot-1 Coordinator	Dr.A. L Wanare
	Prof. D D Khairnar
Slot-2 Coordinator	Prof. Meenalshi A
	Prof. S. S. Dubal
Slot-3 Coordinator	Prof . V G Puranik
	Prof. T.V..Kafare
Total Students Enrolled	75

### Introduction:

Tech companies, and indeed all organizations in the digital economy, are coming to realize that digital skills are vital for employees in the digital era. It is more important than ever that new employees are cross-disciplined and have both hard and soft skills. Whatever the specific job students are interviewing for, recruiters will be looking out for a wider skill set and broader experience in their new hires. In this connection faculty/ Industry professionals needs to develop their digital skills in technical and academic field. This ADD-ON COURSE gives focus on various areas where Digital Skills required for professionals. Very renowned resource persons from IIT's, NIT's and Industries are invited for this training Program

DAY 1/Time	Date 07/12/2020	Particulars
Session 01: 10.00am to 1.30pm	Guest of Honour, Dr.Aditya Abhyankar, Dean and Head Department of Technology	Need of Digital Skills for Teachers. A motivational Session
	Chief Guest Key Note Address by , Dr.Ankit Dubey IIT,JAMMU	Introduction to Internet of Things
DAY 1	Session-2 02.00 to 03.30 and 3.30 to -5.00pm	
Session 02: 00 pm to 05.30pm	Mr.Atul P. Joshi Indus Aviation Systems Pune	IOT – Real Life Application In Aviation Sector

Session 1: Session Objectives	
1	To Understand concept of Internet of Things
2	To Understand IOT Architecture
3	To build IOT Application
4	To Understand Things Speak features
5	To understand Design and Development of Smart Thermometer Develop by IIT Jammu
6	To Demonstrate IOT based Weather Station developed by IIT Jammu

### Inauguration Program :

#### Guest of Honour Dr.Aditya Abhyankar:

Dr. Aditya Abhyankar, Dean and Head Department of Technology was Guest of honour for Inaugural Program of MANAGEMENT Funded ADD-ON COURSE on “ Digital Skill Development for Professionals”. Dr Abhyankar motivated Teachers and Participants who were from various Engineering Colleges from all over the world. He said that faculty must maintain good knowledge base of their subjects with enhancement of various digital skills required for the profession. He added “Class is permanent and form is temporary”. i.e Knowledge is permanent and Skill sets are temporary. He had given various examples to support his opinion. It was very effective talk by him.

#### Session 1: Chief Guest: Keynote Address: Dr Ankit Dubey-IIT Jammu

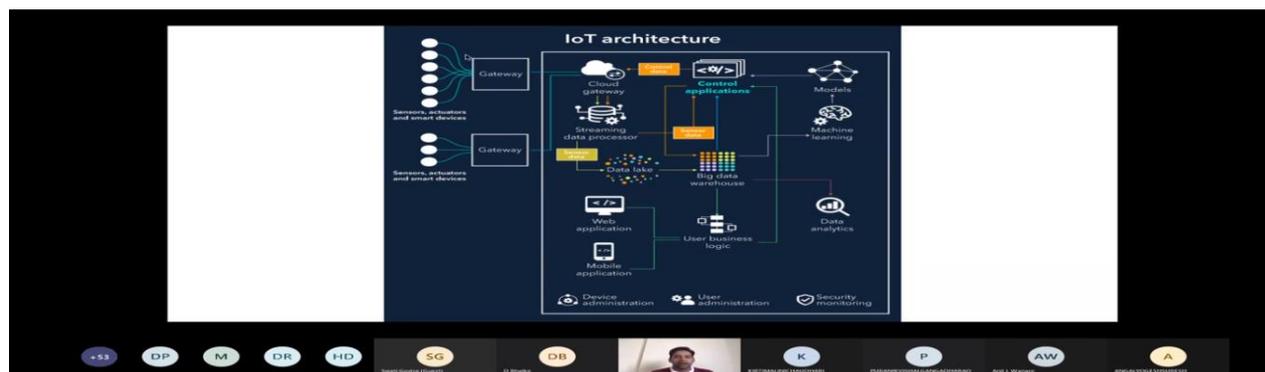

Dr.Ankit Dubey started his presentation with research activities and facilities available in IIT Jammu. IIT Jammu established in 2016. Initial establishment of IIT Jammu under mentor ship of IIT Delhi. He has focused various aspects of IoT and Componentes involved in it. Role of Analog to Digital Converter(ADC), Why we want Devices that can be connected to Internet

#### Categories of things

1. Things that collect information and then send it
2. Things that receive information and then act on it.
3. Things that do both.

He explained how we can play any song in our smart phone. Songs are played not because of all that songs in it but because it can fetch any song from the storage the world has and it is possible because of Internet Connection.

He has explained how actuators acts on information

Question Answer Session was interactive, participants asked questions .  
Session ends with Vote of thanks.

<b>Session 2:</b>	<b>Mr. Atul P. Joshi, CEO, Indus Aviation IOT – Real Life Application In Aviation Sector</b>
-------------------	--

**Session Objectives**

<b>01</b>	To Understand IoT as a business revolution enabled by Technology
<b>02</b>	To Understand Concept of IoT in aviation
<b>03</b>	To discuss Special care in developing IOT application for AVIATION Industry

Mr. Atul P Joshi given excellent presentation and demonstrated various steps involved in IoT based Aviation systems.

**Photo 12. IoT-Real Life application in Aviation Sector**

He explained how IoT based technology plays important role in business revolution

He also elaborated this concept as inclusion of IoT Technology is transforming Digital Business. He explained role of IoT in development of Smart City and health applications, traffic controls etc.

**Special care in developing IOT application for aviation industry**

The RFID standard that is useful in the aviation industry is SAE AS5678

This offers guidelines regarding robustness and reliability of the RFID tags (IATA, 2013).

The safety, performance expected, and the testing of the RFID tags are verified to ensure that they meet the aviation industry flammability specifications as well as retain the data in containment after the "shake'n'bake tests" of the battery

The radiation emission and electromagnetic signals emitting from the RFID tags should not interfere with the navigation capability of the aircraft.

**Photo 17. Special care in developing IOT application for aviation Industry**

## **Feedback of SESSION-1 AND SESSION-2**

Feedback given by participants on Technical Delivery, usefulness of Topic for further developments. Sessions were very effective as per the feedback received from the Participants

## **Outcome of SESSION 1 AND SESSION 2**

1. Understanding of Concept of IoT.
2. Understanding Architecture of IoT.
3. Application of IoT in Smart City Development.
4. Demonstration of IoT application for “Smart Thermometer” by IIT Jammu.
5. Demonstration of “IoT Weather Station” by IIT Jammu.
6. Discuss the Concept of IoT in Aviation Systems
7. Review of Data flow in IoT applications

Quizzes on every sessions for 10-15 questions were framed to evaluate understanding of the of the sessions by the Participants.

## **Day two: 08/12/2023:**

### **Introduction:**

Tech companies, and indeed all organizations in the digital economy, are coming to realize that digital skills are vital for employees in the digital era. It is more important than ever that new employees are cross-disciplined and have both hard and soft skills. Whatever the specific job students are interviewing for, recruiters will be looking out for a wider skill set and broader experience in their new hires. In this connection faculty/ Industry professionals needs to develop their digital skills in technical and academic field. This ADD-ON COURSE gives focus on various areas where Digital Skills required for professionals. Very renowned resource persons from IIT's, NIT's and Industries are invited for this training Program

DAY 2/Time	Date 08/12/2020	Topic
10.00am to 01.30pm	Name of Industry Expert: Mr. Adinath Giri	Python Programming : Object Oriented Programming concepts in python
DAY 2/Time	Date 08/12/2020	
2.20pm to 05.30pm	Name of Expert: Dr. Raghunath S. Holambe	Transformation Techniques in Digital Signal And Image Processing applications
<b>Session 1: Session Objectives:</b> By attending the session attendees will be able following:		
1	To Understand concept of Object Oriented Programming (OOP)	
2	To Understand fundamentals of Python	
3	To understand the various syntax or commands in Python	
4	To Understand to create the objects using python	
5	To understand Design and Development of python programming by considering today's scenario	
6	To write the basics programs in python	

### **Session 1: Python Programming – A Practical Approach**

Though Python is an object-oriented language without fuss or quibble, we have so far intentionally avoided the treatment of object-oriented programming (OOP) in the previous chapters of our Python tutorial. We skipped OOP, because we are convinced that it is easier and more fun to start learning Python without having to know about all the details of object-oriented programming. Even though we have avoided OOP, it has nevertheless always been present in the exercises and examples of our course. We used objects and methods from classes without properly explaining their OOP background. In this chapter, we will catch up on what has been missing so far. We will provide an introduction into the principles of object oriented programming in general and into the specifics of the OOP approach of Python. OOP is one of the most powerful tools of Python, but nevertheless you don't have to use it, i.e. you can write powerful and efficient programs without it as well. Though many computer scientists and programmers consider OOP to be a modern programming paradigm, the roots go back to 1960s. The first programming language to use objects was Simula 67. As the name implies, Simula 67 was introduced in the year 1967. A major breakthrough for object-oriented programming came with the programming language Smalltalk in the 1970s. You will learn to know the four major principles of

object-orientation and the way Python deals with them in the next section of this tutorial on object-oriented programming:

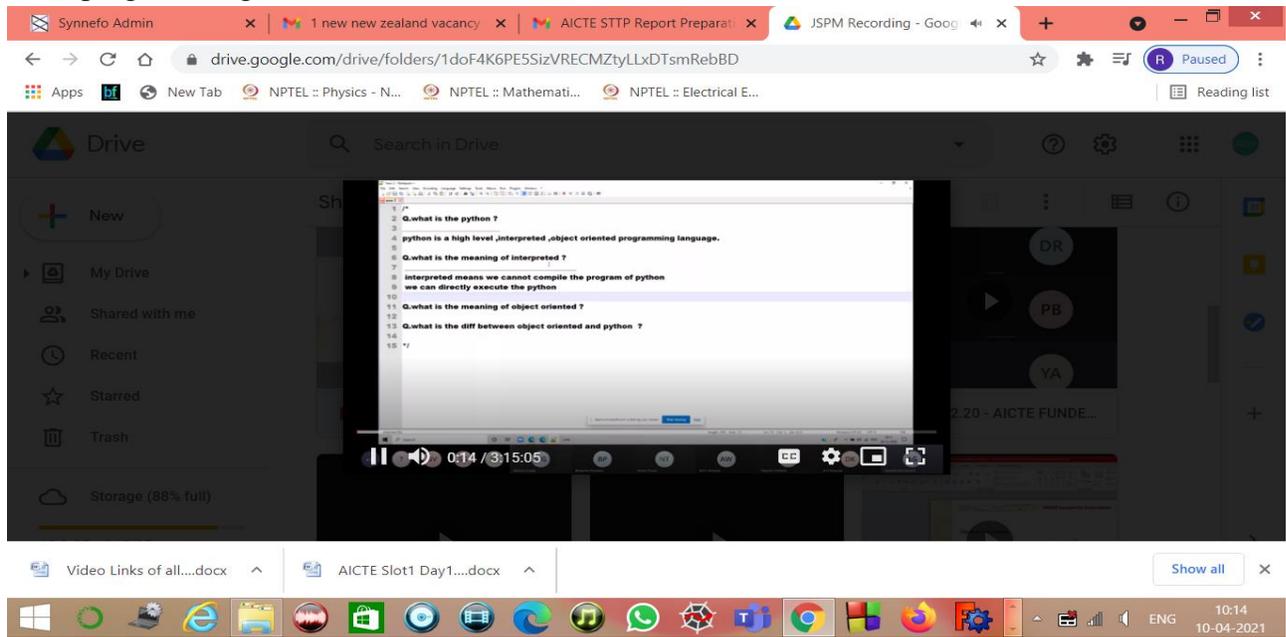

Photo 1: Basics of Python by Mr. Adinath Giri

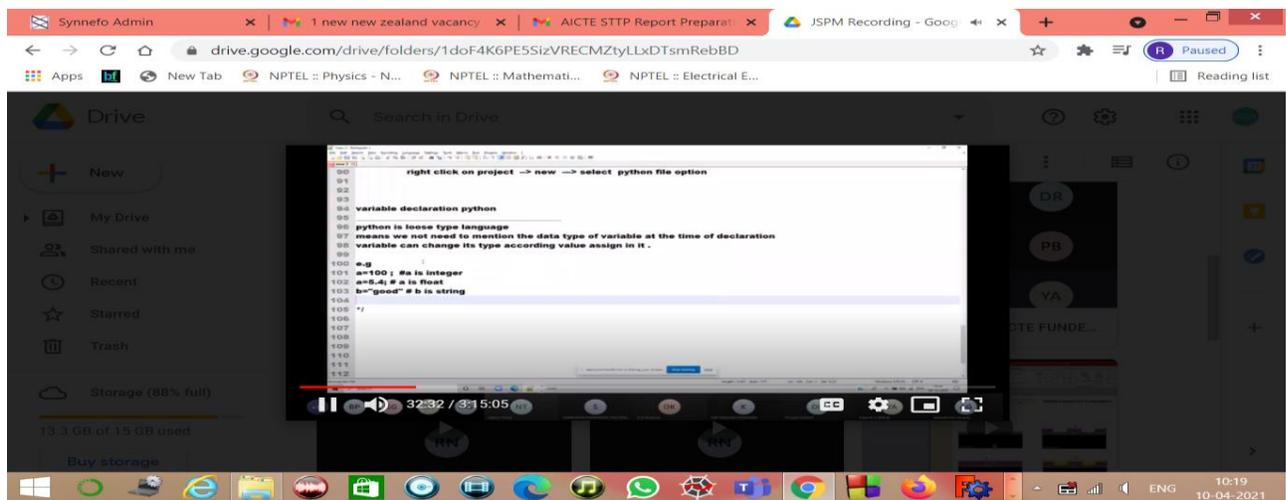

Photo 2: What kind of variables used in python by Mr. Adinath Giri

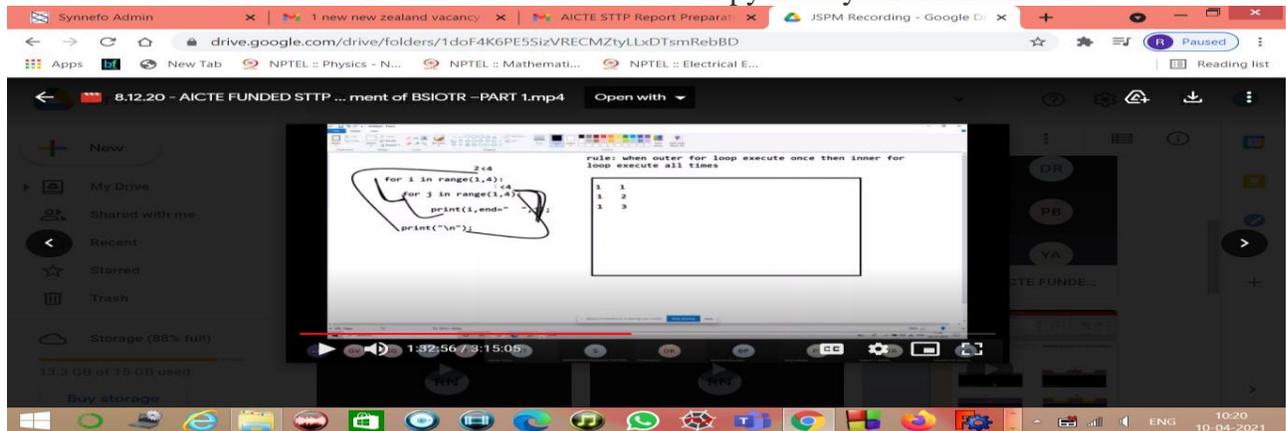

Photo 3: Explained Loops in OOPs in Python Programming by Adinath Giri

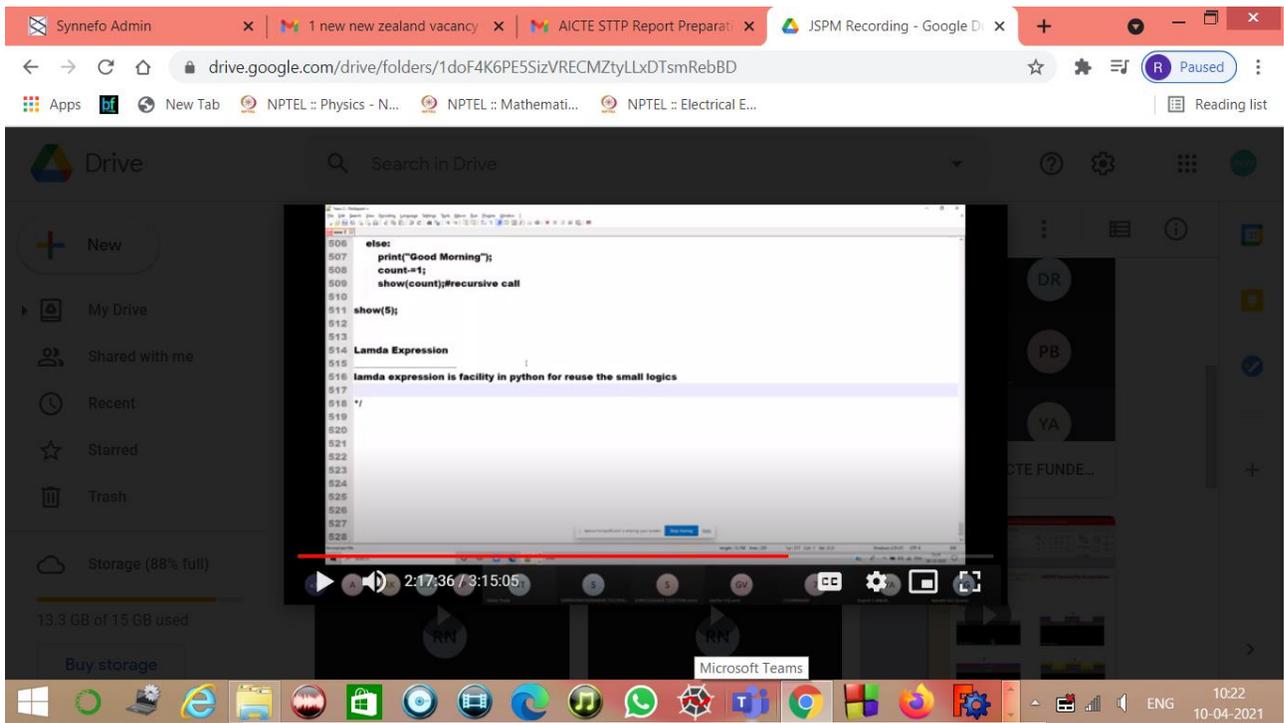

Photo 4: Explained IF,THEN ELSE loop by Mr. Adinath Giri

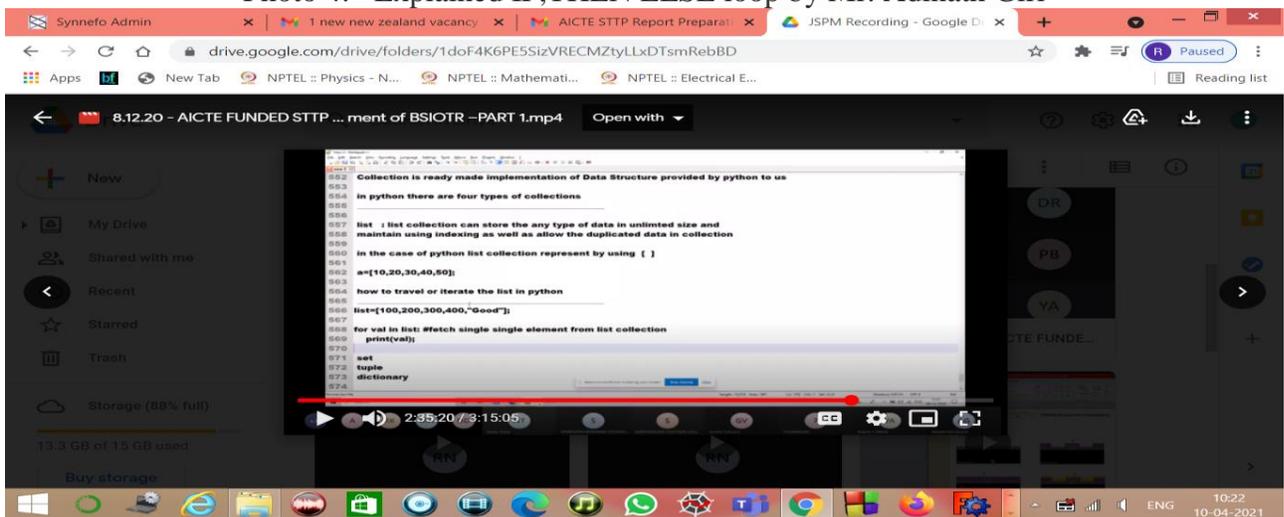

Photo 5: Explained and demonstrated Data Structure Concept in Python

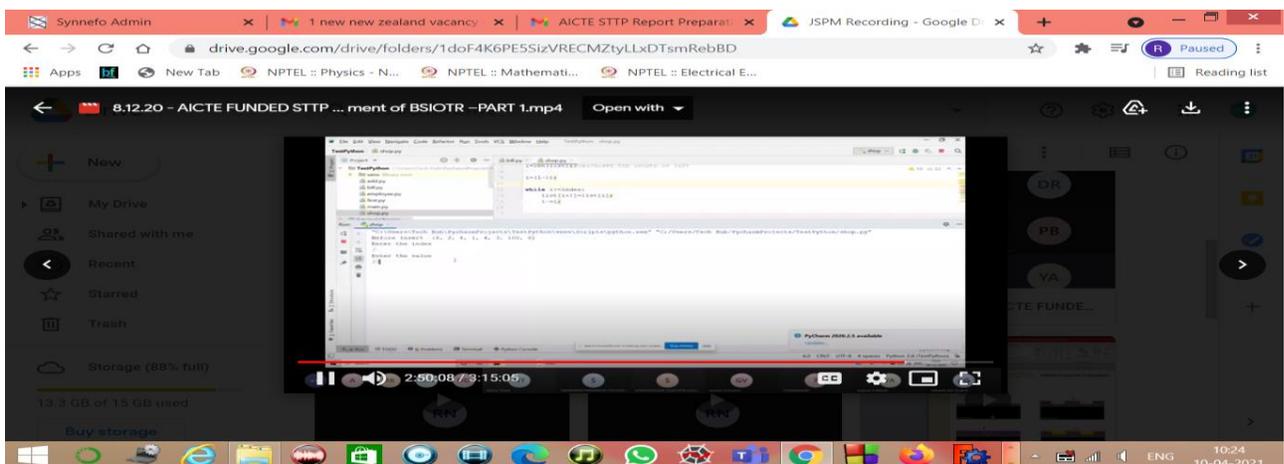

Photo 6: Out of small Program which is related to variables used in python

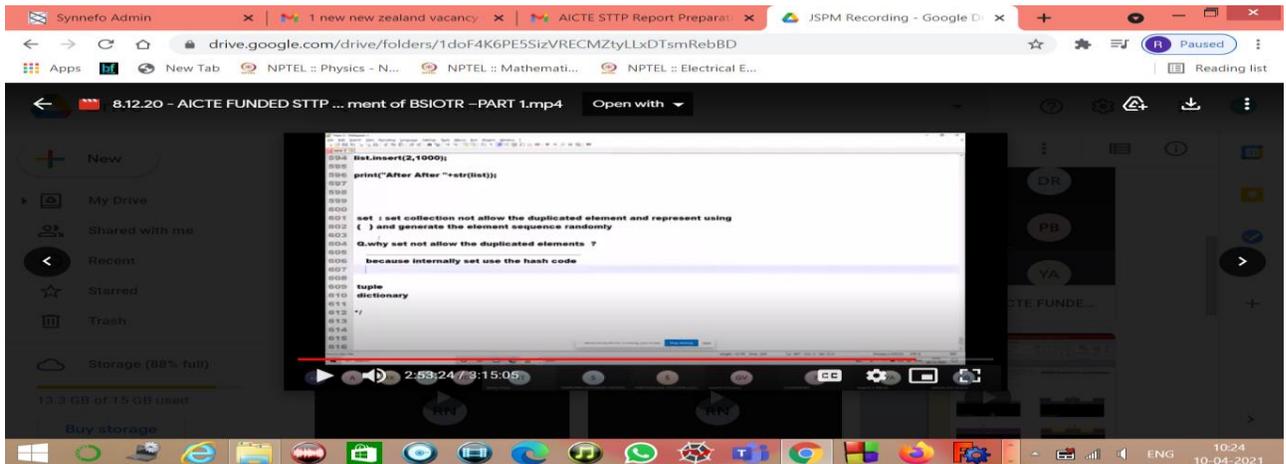

Photo 7: Explained how dictionary concept is initiated in programming

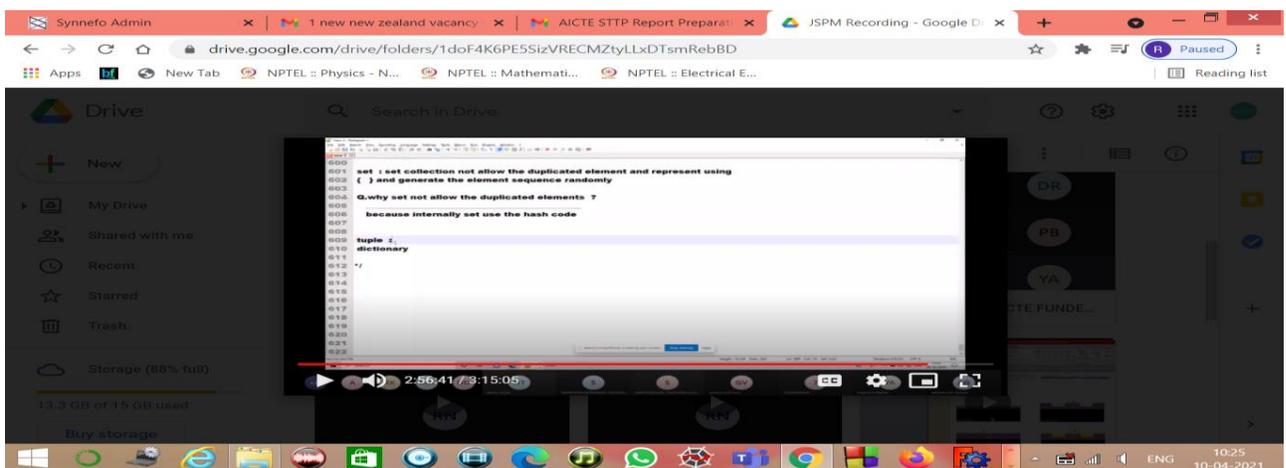

Photo 8: How to use duplication in python programming

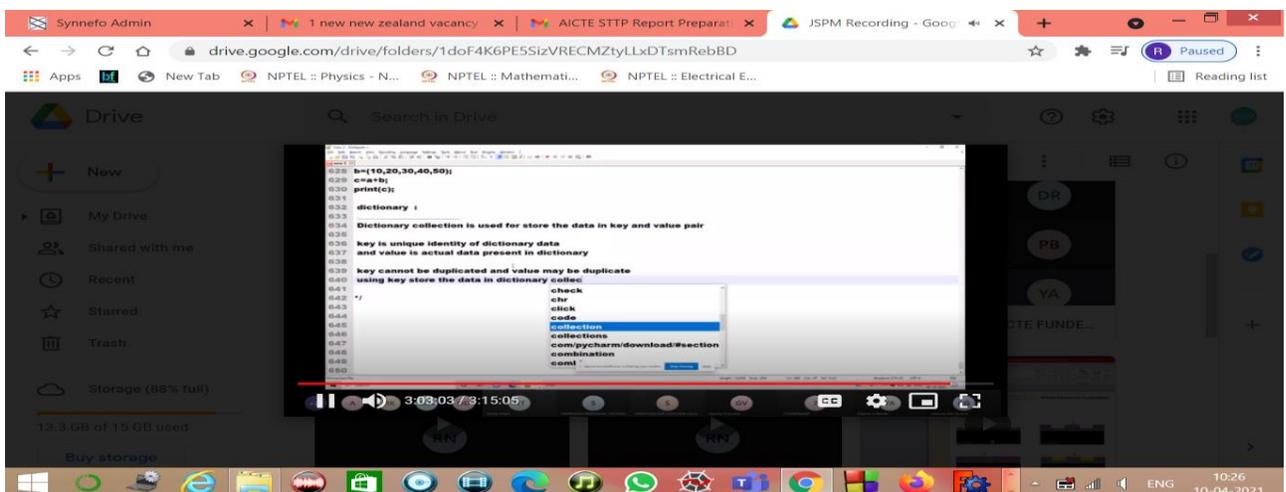

Photo 9. Explained some key elements required in programming skill

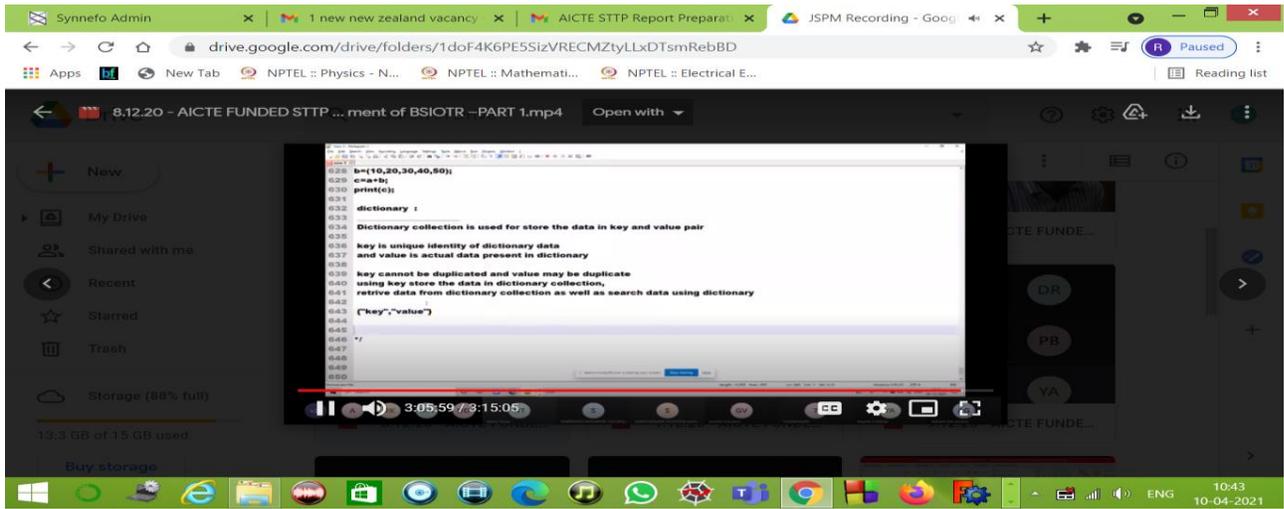

Photo 10 .Explained; How Dictionary is used in Python programming

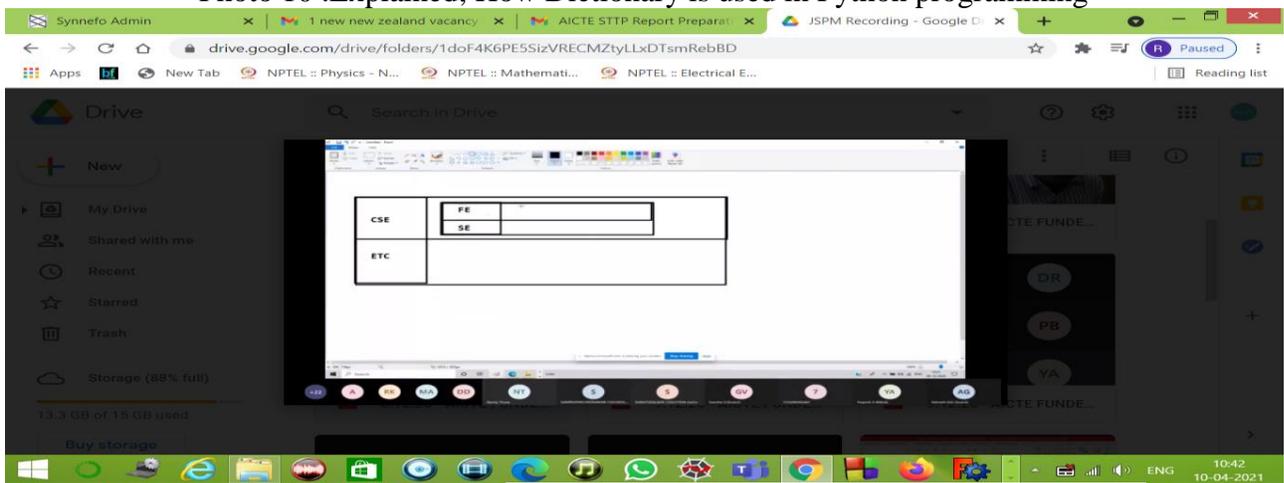

Photo 8 . Mr. Adinath Giri , Demonstrating hierarchy in Python Programming

After completion of session;

Question Answer Session was interactive, participants asked questions some typical questions to Mr. Adinath Giri to upgrade the knowledge about the python and recent trends in python in artificial intelligence and Machine Learning, Data science as well. Also discussed about; how to develop the expertise in python programming to get benefits in industry, and society. Some participants were discussed opportunities in the industry by completing the course of python programming. Finally due to time constraint Mr. Giri appeal to all participant to call me by taking contact details from ADD-ON COURSE coordinator Dr. Yoges S. Angal

**Vote of Thanks:**

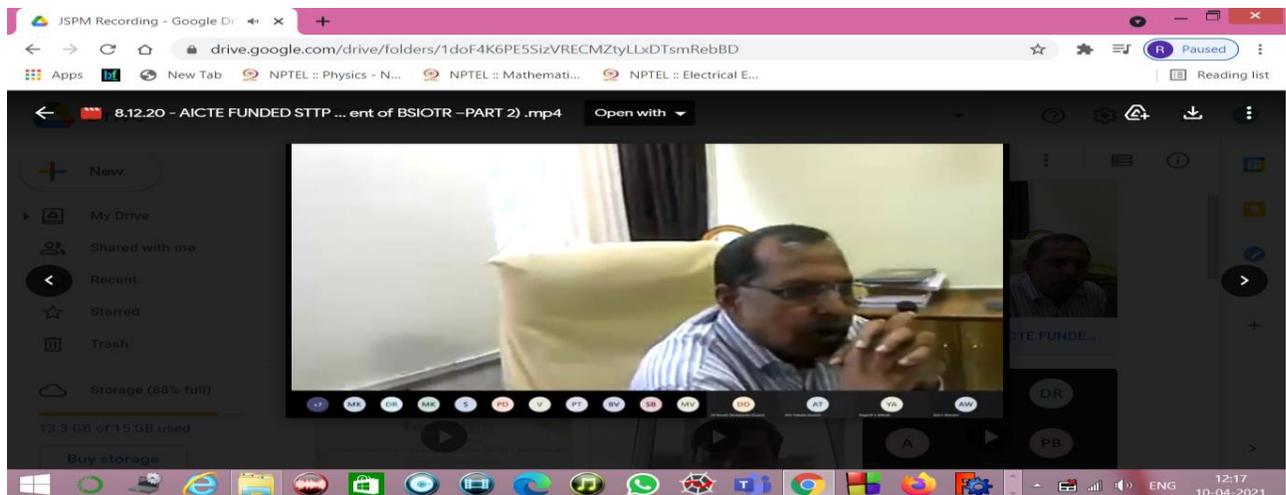

Session ends with Vote of thanks, which is delivered by delivered by Prof. D.D. khairnar  
 .....Session One End.....

<p><b>Session 2:</b></p>	<p><b>Dr. Raghunath Sambhaji Holambe</b>  <b>Professor (Instrumentation Dept.)</b>          Shri Guru Gobind Singhji (SGGS) Institute of Engineering &amp; Technology, Vishnupuri,          Nanded-431 606 (MS)          Email(s): rsholambe@yahoo.com; rsholambe@gmail.com</p>	<p>Session Delivered on  <b>Transformation Techniques in          Digital Signal And Image          Processing applications</b></p>
--------------------------	---	---

**Session Objectives**

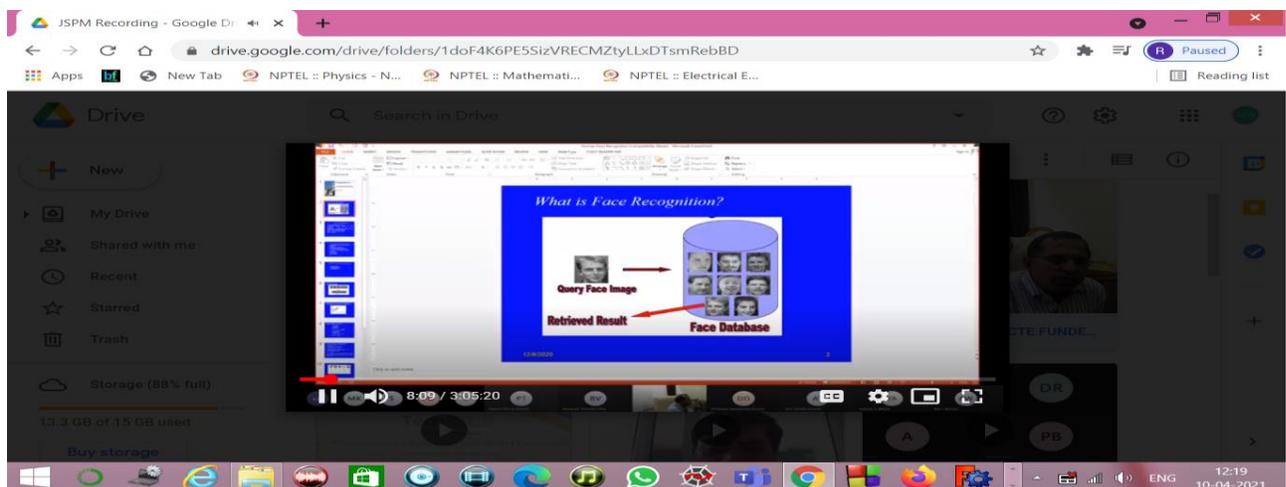

01	To Understand Concepts of Discrete Time Fourier Transform
02	To Understand Concept of Digital Image Processing
03	To Understand the concepts related to pattern recognition
04	To be acquainted with the algorithms relevant to applications of DIP
05	To be aware about the DIP and DSP algorithms based on principle component analysis (PCA)

Dr. Raghunath Sambhaji Holambe given excellent presentation and demonstrated various transformation techniques which are used in digital signal processing and image processing applications by applying different algorithms developed in transform domain in both the signal and image processing.

**Photo 9. IoT-Real Life application in Aviation Sector**

He explaining about the prerequisite to understand concept required for image processing applications

**Photo 10. Explain the fundamentals of face recognition technique.**

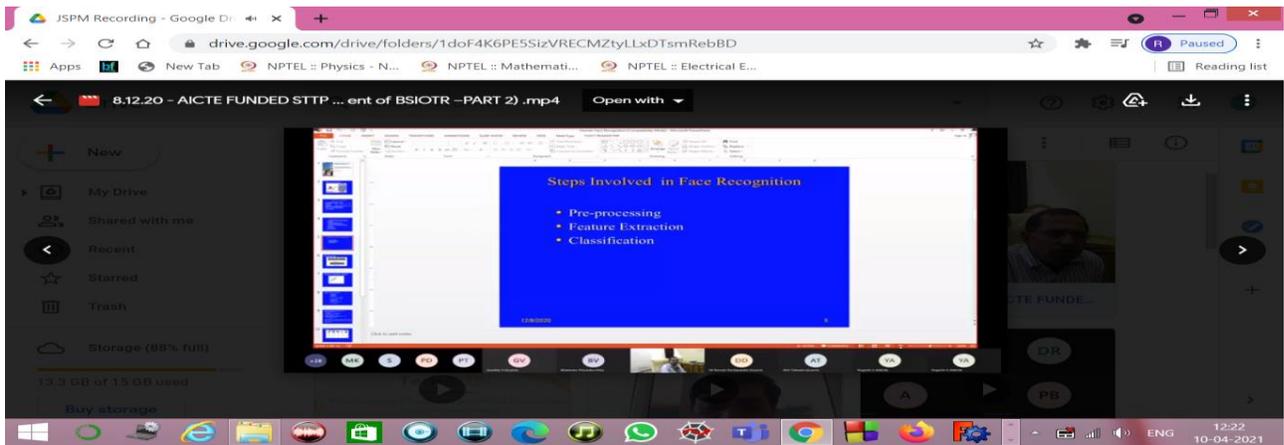

Photo 11 . Steps required for face recognition explained by Dr. Holambe

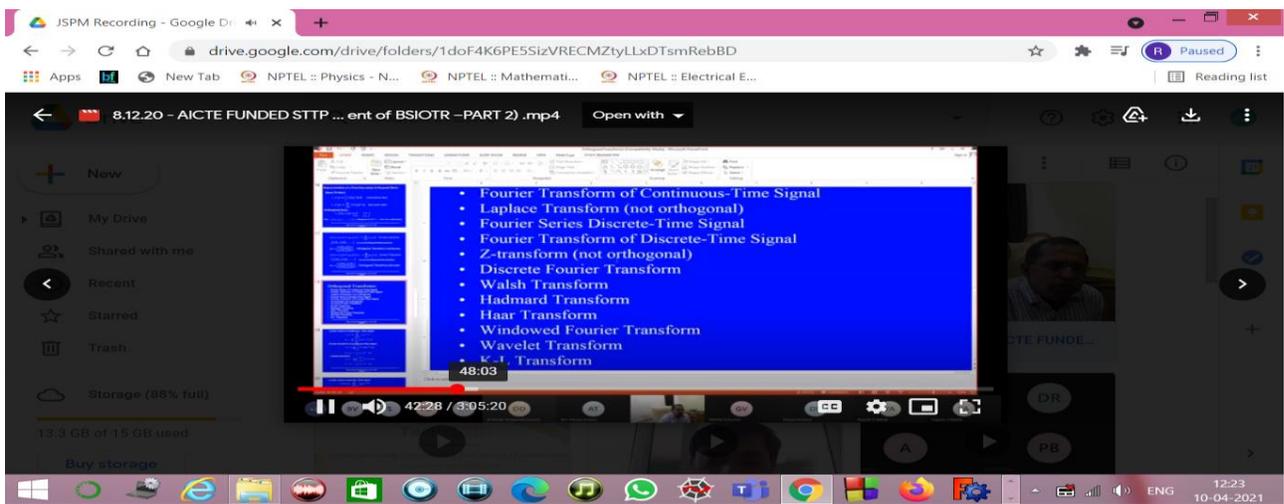

Photo 12 . Discussed about the various transformation Techniques available in the market

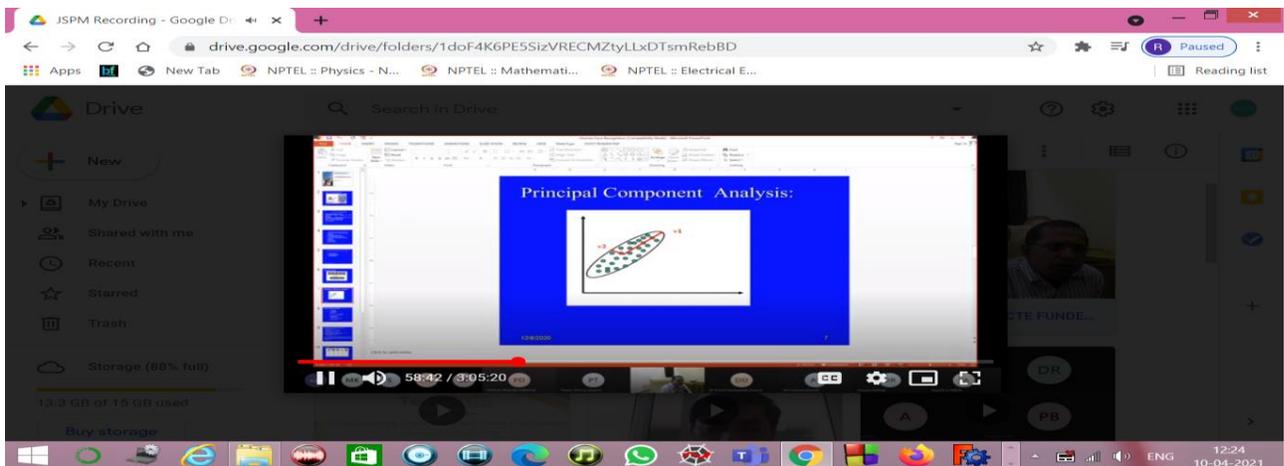

Photo 12 . Explained PCA algorithm utilized in ace recognition applications

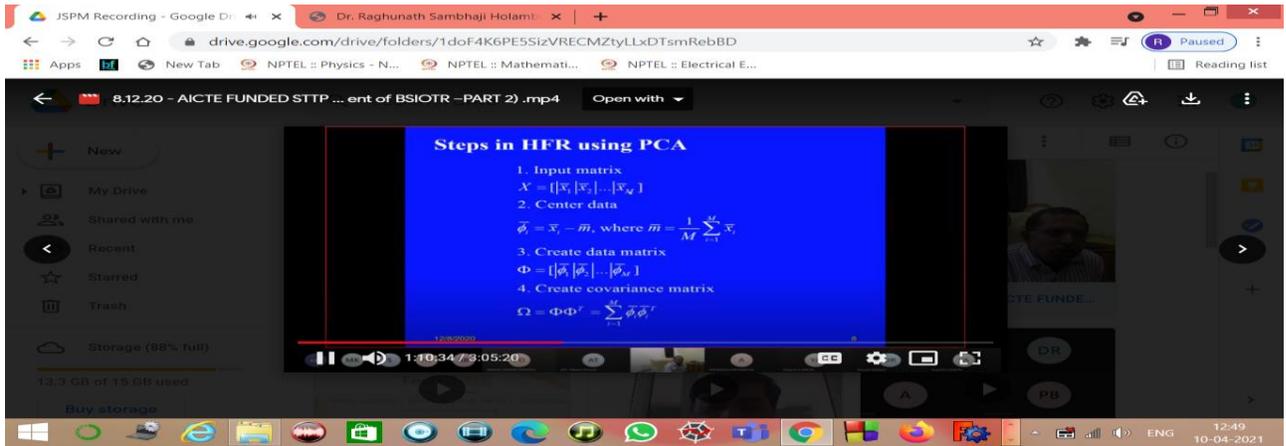

Photo 13. Steps of PCA in face recognition

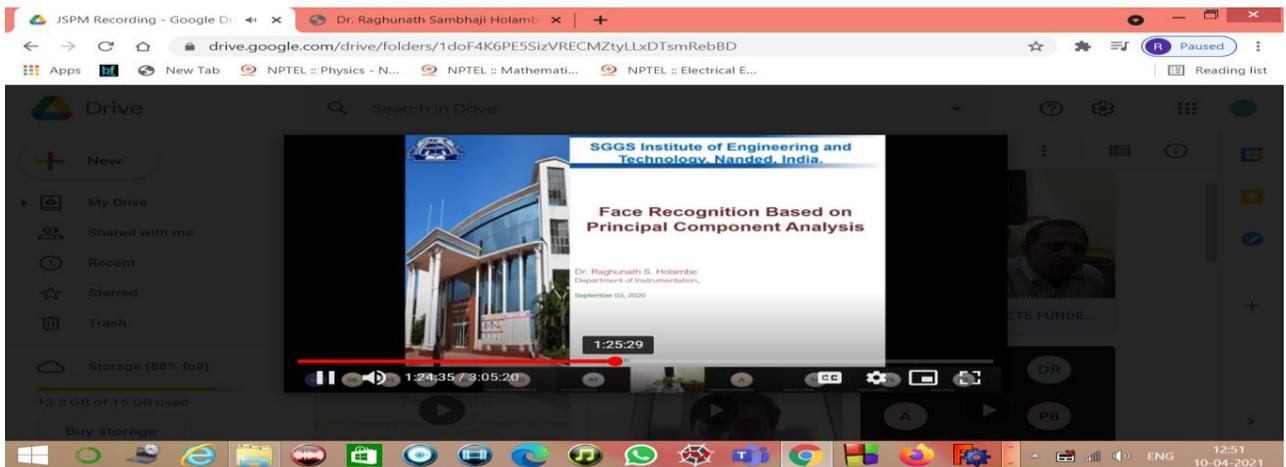

Photo 14. Image used in face recognition (SGGS Building)

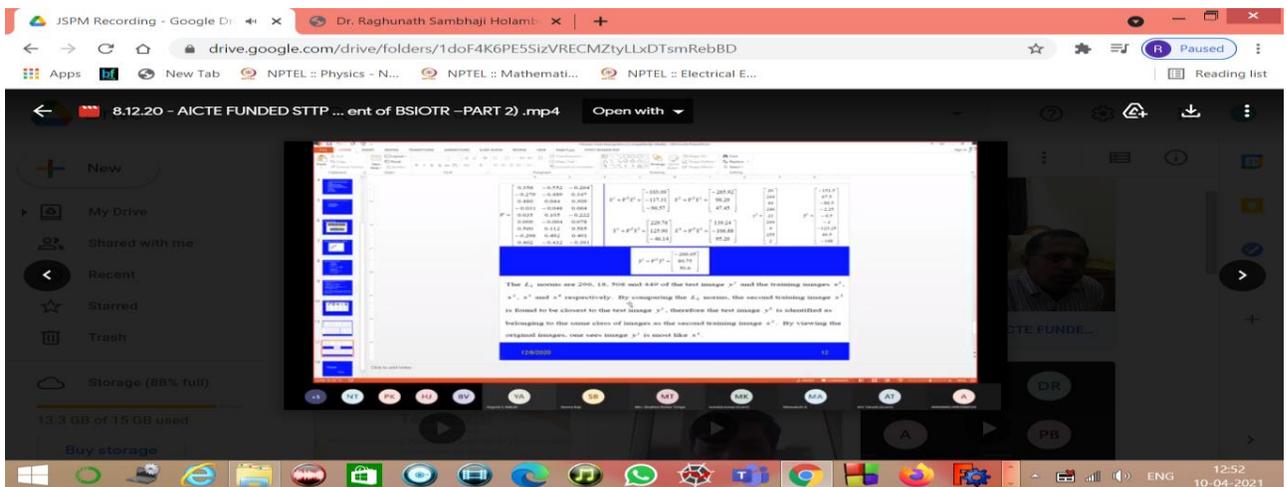

Photo 15. Output of algorithm: PCA in face recognition

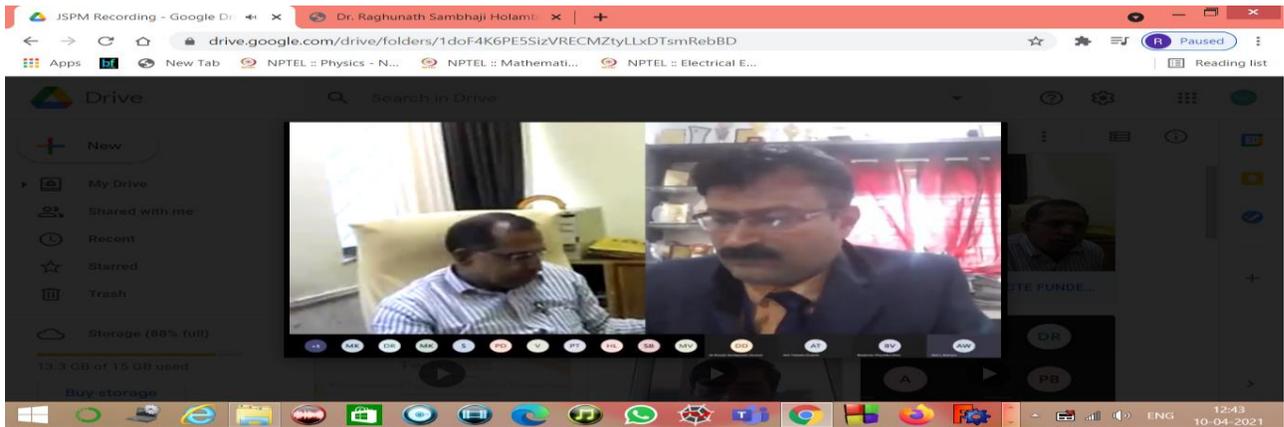

Photo 14. Expressing gratitude to Dr. Holambe sir by ADD-ON COURSE coordinator Dr. Y.S.Angal

### **Feedback of SESSION-1 AND SESSION-2**

Feedback given by participants on Technical Delivery, usefulness of Topic for further developments. Sessions were very effective as per the feedback received from the Participants

### **Outcome of SESSION 1 AND SESSION 2**

1. Understanding of Concept of Python programming
2. Apply the concepts of OOPs.
3. Apply the basics syntax to write python program.
4. Able to execute the program of python by applying various variables.
5. Able to apply the skill to develop small application related to AI and ML.
6. Understand the concept of transformation techniques.
7. Apply the concept of KLE and The Hotelling transform is a linear transformation
8. Remember the set of n dimensional vectors that decorrelates the n coordinates.

Quizzes on every sessions for 10-15 questions were framed to evaluate understanding of the of the sessions by the Participants.

After completion of session;

Question Answer Session was interactive, participants asked questions some typical questions to Dr. Holambe sir, to upgrade the knowledge about the image processing and recent trends in DSP and DIP in artificial intelligence and Machine Learning, Data science as well. Also discussed about; how to develop the expertise in DIP to get benefits in industry, and society. Some participants were discussed opportunities in the industry by completing the course of AI.ML and DS programming. Finally due to time constraint Holambe sir, appeal to all participant to call me by taking contact details from ADD-ON COURSE coordinator Dr. Yoges S. Angal

**Vote of Thanks:**

Session ends with Vote of thanks, which is delivered by delivered by Prof. Meenakshi Annamalai

..... Session Two End .....

## **Day Three: 09/12/2020:**

### **Introduction:**

Tech companies, and indeed all organizations in the digital economy, are coming to realize that digital skills are vital for employees in the digital era. It is more important than ever that new employees are cross-disciplined and have both hard and soft skills. Whatever the specific job students are interviewing for, recruiters will be looking out for a wider skill set and broader experience in their new hires. In this connection faculty/ Industry professionals needs to develop their digital skills in technical and academic field. This ADD-ON COURSE gives focus on various areas where Digital Skills required for professionals. Very renowned resource persons from IIT's, NIT's and Industries are invited for this training Program

DAY 3/Time	<b>Date 09/12/2020</b>	Topic
10.00am to 01.30pm	Name of Industry Expert: Mr. Adinath Giri	Python and Machine Learning
DAY 3/Time	<b>Date 08/12/2020</b>	
2.00pm to 05.30pm	Name of Expert: Mr. Adinath Giri	Python and Machine Learning
<b>Session 1: Session Objectives:</b> By attending the session attendees will be able following:		
1	To Understand fundamentals of Python	
2	Machine Learning/Deep Learning	
3	Artificial Intelligence (AI) and its types	
4	To Understand to create the objects using python	
5	To understand Design and Development of python programming by considering today's scenario	
6	To write the basics programs in python	

### **Session 1: Python Programming – A Practical Approach**

Python is a general purpose programming language. Hence, we can use the programming language for developing both desktop and web applications. Also, Python is used for developing complex scientific and numeric applications. Python is designed with features to facilitate data analysis and visualization. Python programming is powering the global job market. "Python has a solid claim to being the fastest-growing major programming language." It also, according to the same source, is the most used computer language in high-earning economies

Python programming is a general-purpose, used in almost all fields, including:

- Data science
- Scientific and mathematical computing
- Web development
- Finance and trading
- System automation and administration
- Computer graphics
- Basic game development
- Security and penetration testing
- General and application-specific scripting

- Mapping and geography (GIS software)

Mr. Adinath Girisir started the session with the brief introduction about learning importance of Python programming and review of Day 2 session on topics of Machine learning, Artificial Intelligence (AI) and its types and initial commands generally used in Python.

In Day 3 session, he started with life cycle of Machine learning, Project goal, Goals of Data collection, Stages of Data Preprocessing, Data Visualization, Model Selection, Model Building and Model Deployment, Pandas etc., He has conducted both the sessions morning as well as evening and explained programming in detail with many examples

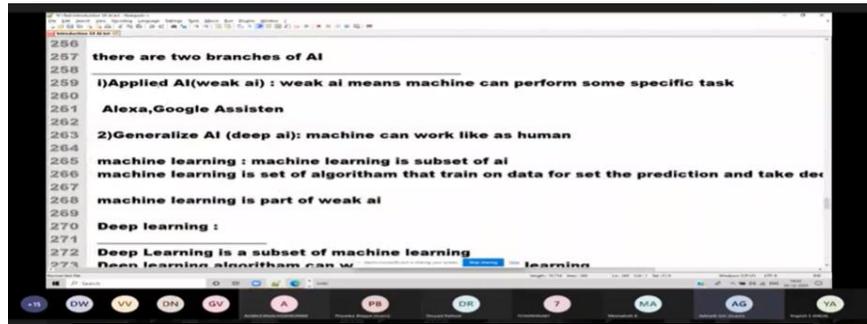

Photo 1: Basics of Machine Learning by Mr. Adinath Giri

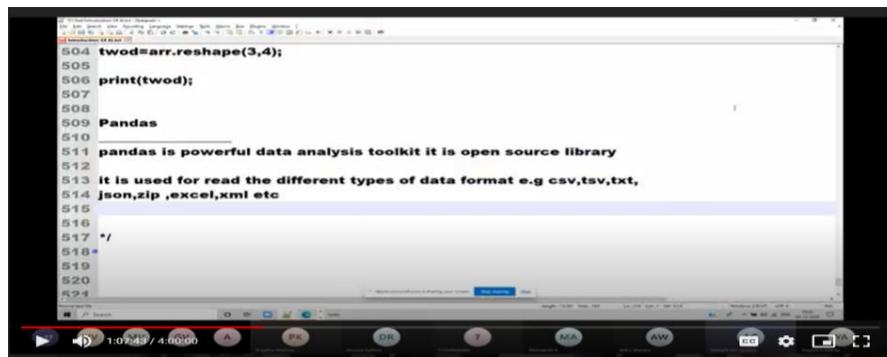

Photo 10. Pandas – Powerful data analysis tool

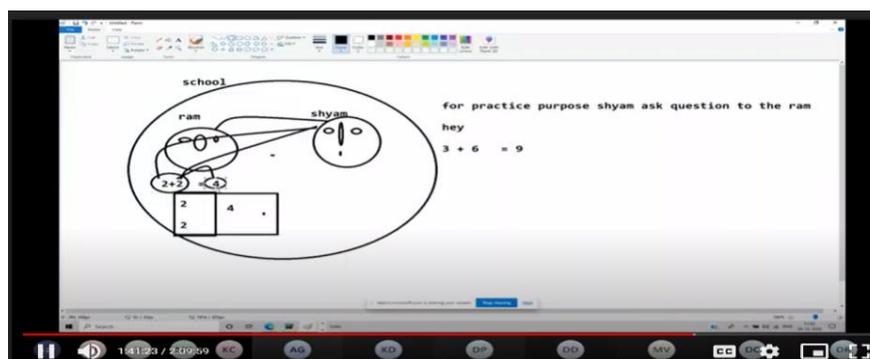

Photo 11. Example program

After completion of session;

Mr. Adinath Giri session was an interactive discussion session to answer queries of participants and to provide more insights in Python with respect to artificial intelligence, Machine Learning and Data science as well. Since Python and Machine Learning, Artificial Intelligence and data science are the top trending requirement in the global market, participants were very eager to know more about this programming language. It is useful to upgrade the knowledge about the python and recent trends in python. Also discussed about; how to become expertise in python programming to get benefits in industry, and society. Resource person explained every concept clearly with simple examples on each topic.

### **Vote of Thanks:**

Participants appreciated chairperson and ADD-ON COURSE coordinator for organizing Python session in MANAGEMENT funded ADD-ON COURSE . Session ends with Vote of thanks, which is delivered by Dr. Yogesh S. Angal, ADD-ON COURSE program Coordinator.

## **Day Four: 09/12/2020:**

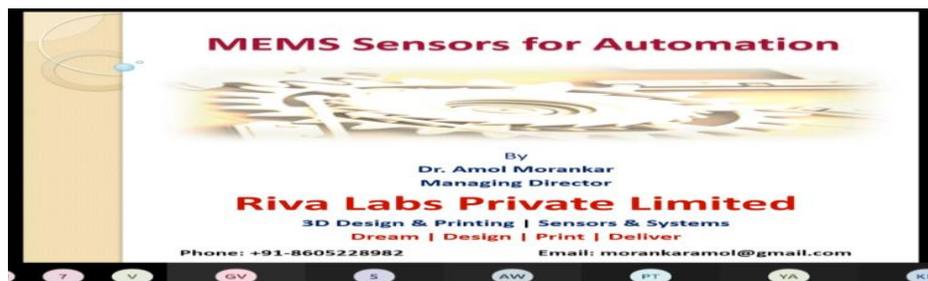

### **Introduction:**

Tech companies, and indeed all organizations in the digital economy, are coming to realize that digital skills are vital for employees in the digital era. It is more important than ever that new employees are cross-disciplined and have both hard and soft skills. Whatever the specific job students are interviewing for, recruiters will be looking out for a wider skill set and broader experience in their new hires. In this connection faculty/ Industry professionals needs to develop their digital skills in technical and academic field. This ADD-ON COURSE gives focus on various areas where Digital Skills required for professionals. Very renowned resource persons from IIT's, NIT's and Industries are invited for this training Program

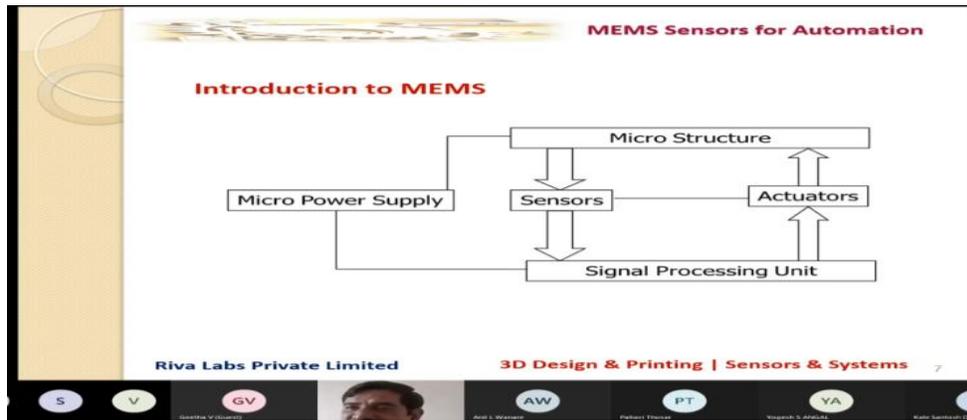

DAY 4/Time	Date 10/12/2020	Particulars
10.00am to 01.30 pm	Inauguration and Session 1 10.00 to 11.30 and 11.30 to 01.00pm	
	Session 1- Dr. Rahul Morankar, Founder & CEO- RIVA LABS PVT LTD, Nagpur on 3-D Design & Printing- Sensors & Systems, Micro manufacturing of MEMS.	Need of Digital Skills for Teachers. A motivational Session along with emphasis on MEMS Technology
DAY 4	<b>Session-2 02.00 to 03.30 and 3.30 to -5.00pm</b>	
2.00pm to 05.30pm	Session 2- Ms. Akanksha Abhijeet Deshpande, Siemens Energy , Team Lead, Quality Management.	Digitization in Industry- A need of Hour
<b>Session 1: Session Objectives</b>		
1	To Understand concept of MEMS-Its Market Forecast	
2	To Understand MEMS Structure	
3	To Understand concept of smart sensors	
4	To Understand Micrfabrication features	
5	To understand Design and Development of system using Smart Sensors	
6	To Demonstrate MEMS system	

### **Session 1: Resource Person: Dr. Rahul Morankar, Founder & CEO- RIVA LABS PVT LTD, Nagpur on 3-D Design & Printing- Sensors & Systems, Micro manufacturing of MEMS.**

Dr. T.K. Nagaraj , Principal and Dr.Y.S. Angal, Coordinator welcome all participants and resource person for Day-4 Session of Slot-1 of ADD-ON COURSE .

**Photo 1 Welcome to resource person**

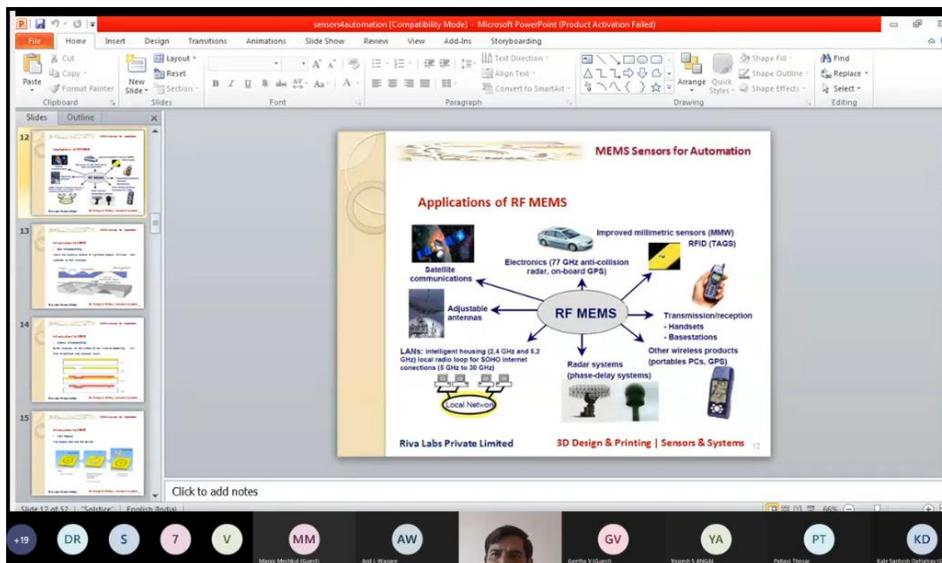

**Photo 2 Introduction of MEMS Technology**

During his session he introduced the need of MEMS system, the scenario of this system in industries. MEMS are Micro-Electro-Mechanical Systems that are made using micro-fabrication technologies. These devices can range in size from less than one micro to several millimeters and vary in complexity from very simple to extremely sophisticated mechanical moving systems with integrated electronics.

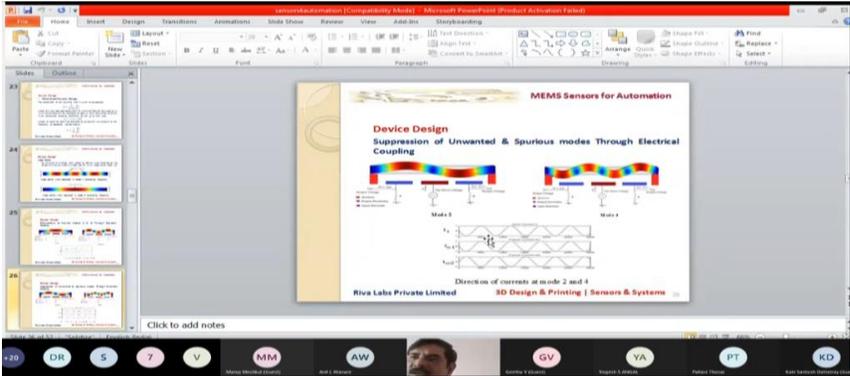

While the functional elements of MEMS are miniaturized structures, sensors, actuators, and microelectronics, the most notable (and perhaps most interesting) elements are the microsensors and microactuators. Microsensors and microactuators are appropriately categorized as “transducers”, which are defined as devices that convert energy from one form to another. In the case of microsensors, the device typically converts a measured mechanical signal into an electrical signal.

The real potential of MEMS starts to become fulfilled when these miniaturized sensors, actuators, and structures can all be merged onto a common silicon substrate along with integrated circuits (i.e., microelectronics). While the electronics are fabricated using integrated circuit (IC) process sequences (e.g., CMOS, Bipolar, or BICMOS processes), the micromechanical components are fabricated using compatible "micromachining" processes that selectively etch away parts of the silicon wafer or add new structural layers to form the mechanical and electromechanical devices. It is even more interesting if MEMS can be merged not only with microelectronics, but with other technologies such as photonics, nanotechnology, etc. This is sometimes called “heterogeneous integration.” Clearly, these technologies are filled with numerous commercial market opportunities.

**Photo 3 Applications of MEMS Technology**

Resource person explained in detail Some examples of current MEMS devices include accelerometers for airbag sensors, inkjet printer heads, computer disk drive heads, projection display chips, blood pressure sensors, optical switches, microvalves, biosensors and many other products that are all manufactured in high commercial volumes.

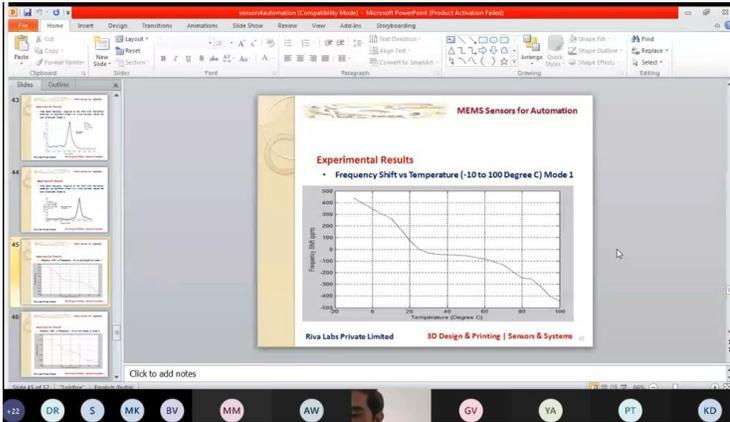

**Photo 4 Device Design Using MEMS Technology**

**Photo 5 Device Fabrication Using MEMS Technology**

Fabrication of MEMS device involves the basic IC fabrication methods along with the micromachining process involving the selective removal of silicon or the addition of other structural layers.

**Photo 6 Implementation of MEMS system with results**

## Advantages of MEMs technology

1. It provides an efficient solution to the need for miniaturization without any compromise on functionality or performance.
2. The cost and time of manufacturing are reduced.
3. The MEMs fabricated devices are more fast, reliable and cheaper
4. The devices can be easily integrated into systems.

## Session 2: Resource Person: Ms. Akanksha Abhijeet Deshpande, Siemens Energy , Team Lead, Quality Management.

Session 2: Session Objectives	
1	To Understand concept of Digitization
2	To Understand overview of digitization in different sectors.
3	To Understand key-elements to build a successful enterprise.
4	To implement transformed digital ecosystems.
5	To understand case study of Digitization in industry.
6	To Demonstrate CAD/CAE automation simulation techniques.
7	To study digital tools- AI & cloud storage.

The theme of this session is to discuss on the process & steps to be followed for “Digitization in Industry”.

### Introduction

**Education:**

- Bachelors in Mechanical Engg. (2003) – From C.O.Engg. Malegaon,Baramati, Pune University.
- Diploma in Mechanical Engg. (2000)- From Walchand College Of Engg.Sangli.B.T.E. Mumbai.

**Career:**

Total Exp. - 16 years

2004-2007: Hriekar Precision Engg.Pvt. Ltd. Pune. Worked as Development Engineer.

2007-2008: Sheik Industries Pvt. Ltd. Pune. Worked as Cad-Cam Engg.

2008-2010: Kalyani Forge Ltd., Worked as Design Engg.

20-Sept-2010: Supported steam Team WLS Opns.as one of the Founder Member of ESC started supporting PDMT team as a senior Engg. Supporting DXB,KBG,OLN Operations worked for Dushberg. Operations for Technical Manual compilation

Leading Quality Team and supporting Europe, USA and Norway operations

**Skill Sets:**

- Engineering: Design of Forging Components, Steam Turbine Components
- CAD: Unigraphics, Pro-e(W/F-2),Catia-V5-R16,Solid Edge V16,Ideas (Modeling, assembly, drafting)
- Simulation: Deform s/w For simulation of Forging components

**Previous Experience:**

- Design & Develop 3D part Modeling, Assemblies & Drafting for Dies & Tooling of forging components by using UG-NX-5,Catia V5-R16 & Pro-e(w/f-2).yes
- Simulation of Forging Components by using Deform S/W
- 3D- Modeling, Assembling & drafting for D.P Gauges by using Solid EdgeV16,Developing differential pressure gauges
- Creating & Peer checking of 3D Models & drawings for steam Turbine Components, Allocating resources.
- Maintaining project tracker, preparing data sheets for monthly report, Execution of Quality & Cycle Time Reduction Project
- ECN & REL'S Management through Team center & Harmonized Tariff Schedule Codes
- Product Data Management & Client & Supplier Documentation (CSDM)

**Hobbies:** Cycling, Playing Badminton, Participating in social Activities, Running

**Mrs. Akanksha Deshpande**

## Photo 2 Welcome & Introduction of DR. R.D. Kharadkar, Resource person by Principal DR.T.K. Nagaraj, Principal BSIOTR.

During the session, the eminent speaker introduced the following concepts like What is Digitization, Overview of different sectors, the Digital Evolution, a Successful Enterprise, key Elements to Building a Successful Enterprise, digitizing Processes, transforming User Experiences, creating Transformed Digital Ecosystems, digital India, evolution of technology from industry 1.0 to industry 4.0., The theme of this seminar/ orientation program is to discuss “DIGITIZATION IN INDUSTRY”, its key elements, digitizing process, and concept of Digital India, its tools, simulation tools like CAD, CAM, and CAE. Another important aspect of industrial digitization is the development of smart products and services to enable and monetize new applications. ... Smart products thus also form the basis for the development of smart services such as data-based business models, Smart City , Smart Agriculture or Smart Healthcare.It is explained that this technology allows anyone today to configure computer software, within digital systems to execute a business process. The contents covered during this orientation lecture are process of digitization, digital solutions, digital transformation, overview of digital sectors, key elements of successful enterprise, and process of digitization, e-learning as an example of digital India, evolution of technology from industry 1.0 to industry 4.0 and case studies of Siemens India, different engineering modeling tools like CAD, CAM, CAE, Cloud storage & Artificial Intelligence as a digital tools.

Opportunities for AI and machine learning

Resource person predicts that in the next two years, 50% of midsize enterprises will improve their productivity and growth by adopting artificial intelligence into their core business operations.

Adopting AI can lead to positive impacts in:

- Product quality;
- Maintenance and machinery life cycle;
- Speed of design;
- Waste reduction; and
- Customer service

The evolution in industries refers to the idea of a fourth industrial revolution:

- First: production mechanization using water and steam power

- Second: mass production (Henry Ford often cited as the innovator)
- Third: digital revolution (e.g., machine tool numerical control, programmable logic controllers, direct digital control, and enterprise resource planning)
- Fourth: Industry 4.0 leveraging cyber-physical systems, embedded computing, Internet of Things technologies

Question Answer Session was interactive, participants asked questions .  
Session ends with Vote of thanks.

### Outcome of SESSION 2

1. Understanding of Concept of Digitization.
2. Understanding significance of digitization in Industries
3. Application of Digitization in industries
4. Understanding stepwise evolution of industries in view of digital evolution.  
Understanding Recent trends in automation & digitization being incorporated in various industries.  
To develop the skills for incorporating digitization & automation using various simulation tools like CAD, CAM, CAE, AI, etc.

Quizzes on every sessions for 10-15 questions were framed to evaluate understanding of the of the sessions by the Participants.

### Feedback of SESSION-1 AND SESSION-2

Feedback given by participants on Technical Delivery, usefulness of Topic for further developments. Sessions were very effective as per the feedback received from the Participants

## Day Five: 11/12/2020

Session 1:	Digital Marketing
Resource Person:	Mr. Subhash Patidar Kh Infinite Possibilities Private Limited

### Session Objectives

01	To Understand digital marketing in various fields
02	To Understand Concept digital products, physical products etc
03	To discuss physical activity required for onsite services.

Digital marketing is the use of the Internet, mobile devices, [social media](#), search engines, and other channels to reach consumers. Mr. Subhash Patidar given excellent presentation on digital marketing and explained it using various examples :

Photo 1: Digital Marketing explained by Mr. Subhash Patidar

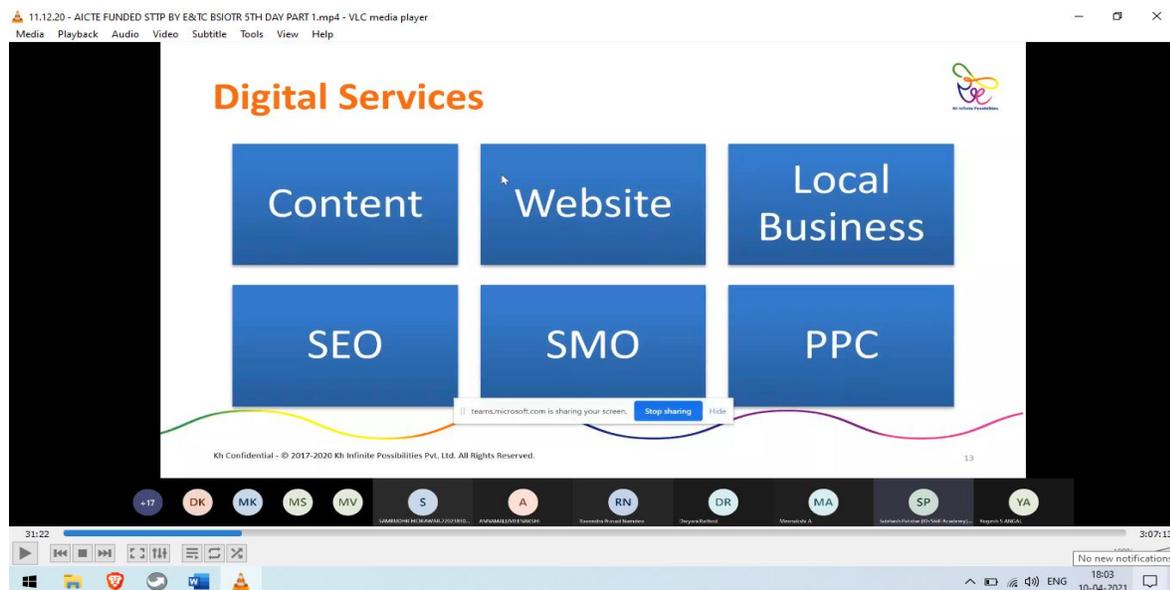

Photo 2: Digital Services

Photo 3: Copyrighting for Digital Marketing

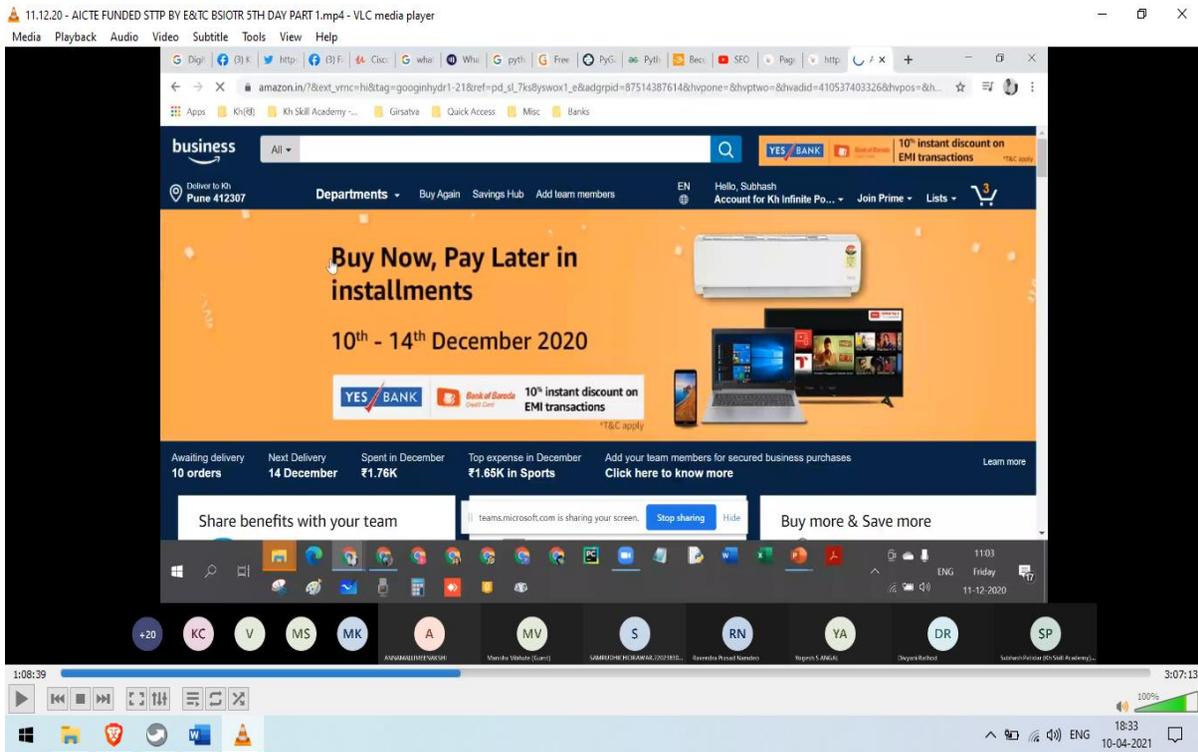

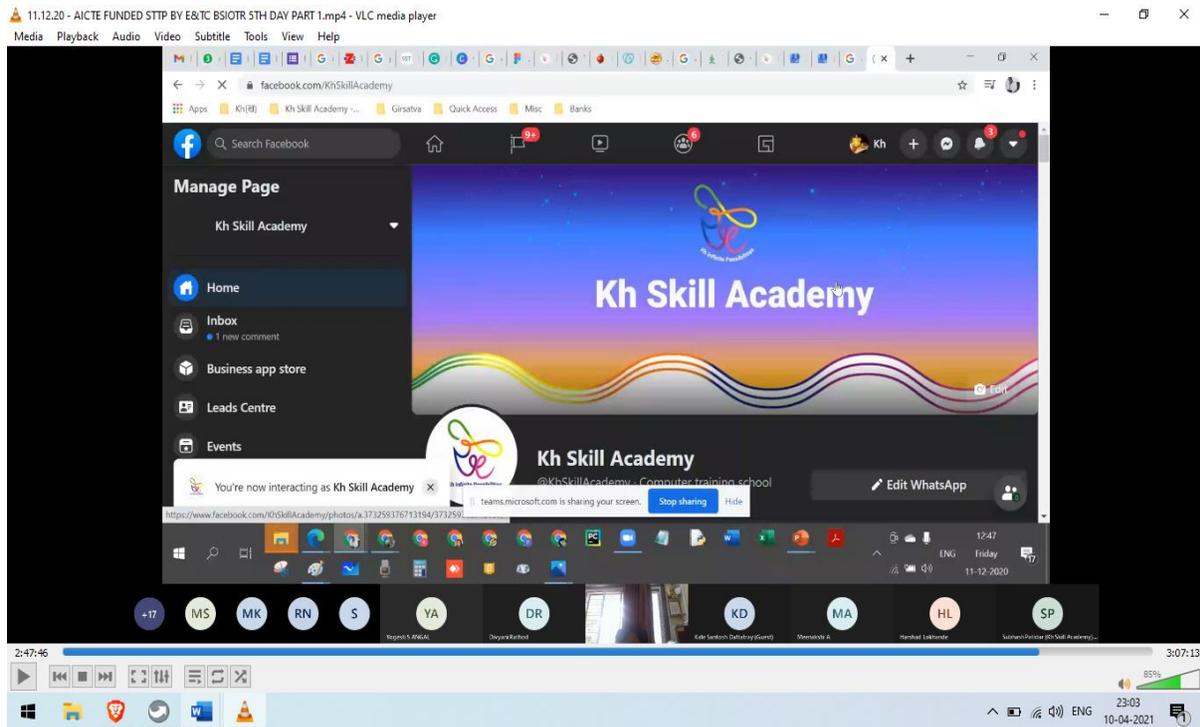

Photo 4: Digital Marketing with Amazon

**Photo 5:Page creation for business**

<b>Session 2:</b>	<b>Panel Discussion on Digital skills for Entrepreneurship Development</b>
<b>Resource Person</b>	<b>Mr.SantoshraoBorde,RSCOE Pune</b> <b>Mr.Rohit Ghosh CEO Skill Edge Pune</b> <b>Mr.Kottaram Ramesh Chief Visison Officer at skills Da,Pune</b>

### **Session Objectives**

<b>01</b>	To discuss role of digital skills in academics
<b>02</b>	To discuss importance of digital literacy
<b>03</b>	How to improve placement of students?

Mr.SantoshraoBorde,Mr Rohit Ghosh and Mr.Kottaram Ramesh participated in panel discussion on Digital skills for Entrepreneurship:

Photo 1: Discussion on Digital skills

Photo 2: Discussing key points for students

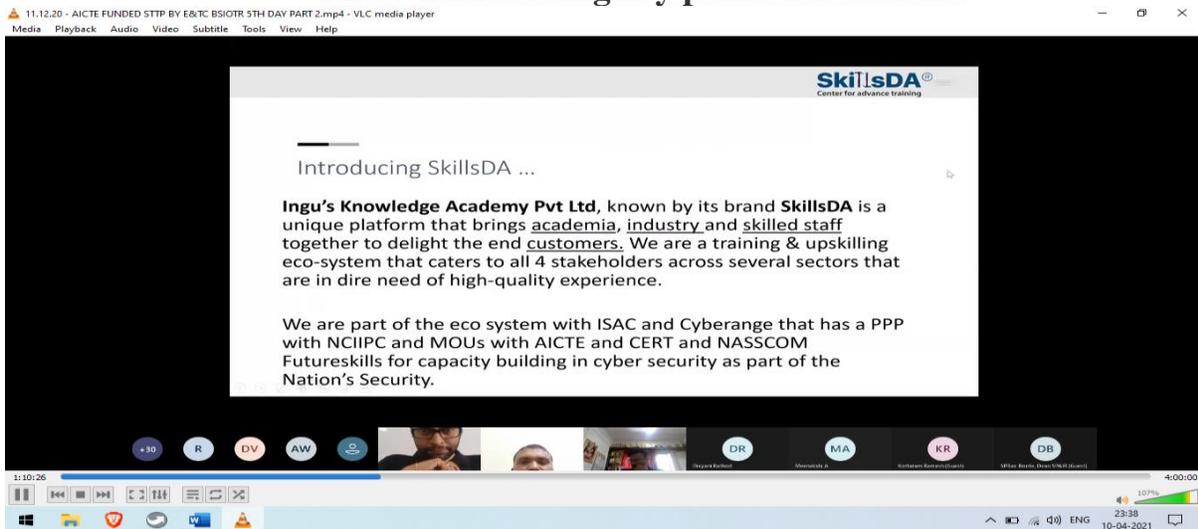

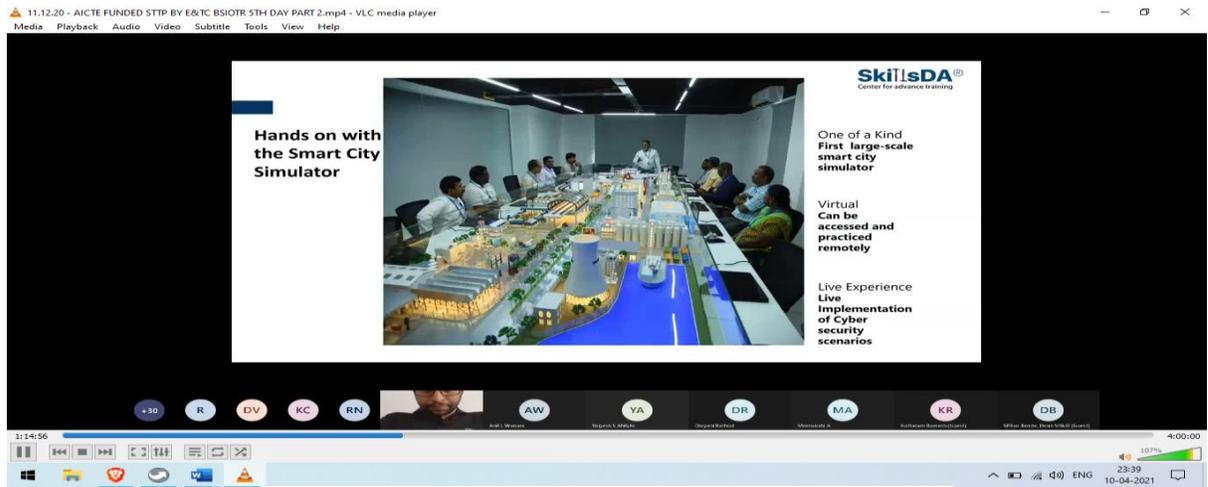

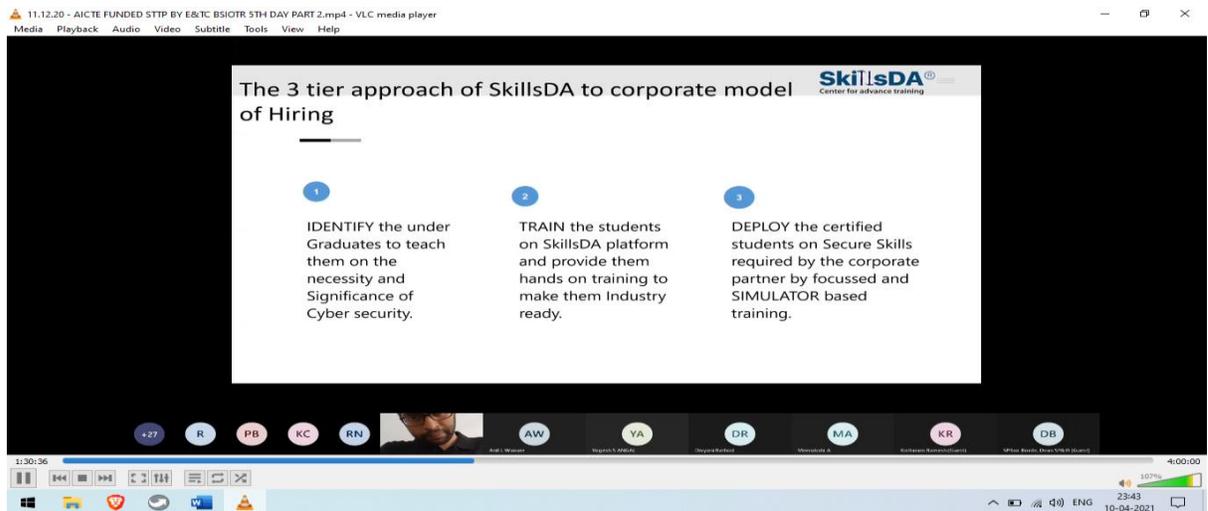

Photo 3: Presentation on Skills DA

**Photo 4: Hands on with Smart City Simulator**

**Photo 5: Cyber security foundation course**

**Photo 6: The 3 tier approach for skills DA**

## **Feedback of SESSION-1 AND SESSION-2**

Feedback given by participants on Technical Delivery, usefulness of Topic for further developments. Sessions were very effective as per the feedback received from the Participants

## **Outcome of SESSION 1 AND SESSION 2**

- Understanding the concept of Digital Marketing.
- Understand Concept digital products, physical products etc
- Understand role of digital skills in academics

Quizzes on every sessions for 10-15 questions were framed to evaluate understanding of the of the sessions by the Participants.

## **Day six: 12/12/2020:**

### **Introduction:**

Tech companies, and indeed all organizations in the digital economy, are coming to realize that digital skills are vital for employees in the digital era. It is more important than ever that new employees are cross-disciplined and have both hard and soft skills. Whatever the specific job students are interviewing for, recruiters will be looking out for a wider skill set and broader experience in their new hires. In this connection faculty/ Industry professionals needs to develop their digital skills in technical and academic field. This ADD-ON COURSE gives focus on various areas where Digital Skills required for professionals. Very renowned resource persons from IIT's, NIT's and Industries are invited for this training Program

DAY 1/Time	Date 12/12/2020	Particulars
10.00am to 01.00pm	Session 1 10.00 to 01.00pm	
	Dr. M.B.Kokare Ph.D.(IIT, Kharagpur) Professor S.G G S E &T, Nanded	Challenges and Research opportunities in AI.
DAY 1	<b>Session-2 02.00 to 5.00pm</b>	
2.00pm to 05.00pm	Mr. Sujit Deokar Technology Lead, Product Development at Inteliment.	Topic: Deciphering Data science, Machine learning use cases.
<b>Session 1: Session Objectives</b>		
1	To Understand Artificial Intelligence	
2	To Understand architecture and types of AI	
3	To build AI Applications	
4	To Understand challenges in AI	
5	To learn research opportunities in AI	
6	To Demonstrate any one can dance feature.	

**JAYAWANT SHIKSHAN PRASARAK MANDAL'S (JSPM)'s**  
**BHIVARABAI SAWANT INSTITUTE OF TECHNOLOGY AND RESEARCH, WAGHOLI PUNE-412207 (BSIOTR)**  
(Approved by AICTE New Delhi, DTE Mumbai, Govt. of Maharashtra and Affiliated to Savitribai Phule Pune University) Accredited with "B++" Grade by NAAC  
**Department of Electronics and Telecommunication Engineering**  
 is Organizing one Week AICTE Funded Short Term Training Programs (STTP)

**On**  
**"DIGITAL SKILL DEVELOPMENT FOR PROFESSIONALS"**  
 Registration Link: <https://forms.gle/YAWYst6CTPCyPY26>  
 Phase I: 7th Dec to 12th Dec 2020 Date: 12 Dec 2020 Day: 6  
 Timings **Session-I** 10.am to 1pm **Session-II** 2pm to 5pm

**Dr. Prof. T.J. Sawant**  
Founder Secretary, JSPM Pune

**Dr. T.K. Nigam**  
Principal, BSIOTR

**Resource Persons for Session-I**

**Dr. Mahesh B. Kokare**  
 Professor, SGGS Nanded  
 Ph.D. BOYSCAST Post Doctoral Research Fellow, University of California Santa Barbara, USA.  
**Topics:** Challenges and Research opportunities in AI

**Resource Persons for Session-II**

**Mr. Sujit Deokar**  
 Technology Lead, Product Development at Inteliment.  
**Topic:** Deciphering Data science, Machine learning use cases.

**Dr. Y.S. Angal (Program Coordinator, HOD E&TC, BSIOTR), Contact: 7057150817**

### Session 1: Dr. Mahesh B Kokare

Session guest Dr. Mahesh Kokare sir is welcome by Prof. Meenakshi A. by giving introduction of the guest including his research and interest area as well as achievements. Dr. Mahesh Kokare started his presentation with their interest area in Artificial Intelligence and given brief overview of the Artificial Intelligence. While discussing on AI and R&D time table he given total life cycle of the design challenges and need of design. Machine can be control by training and it includes speech processing, language processing, machine learning, Deep learning. He explained how we can control machine with the help of artificial intelligence. In his presentation he also included types of machine learning like supervised learning un supervised learning, reinforcement learning etc.

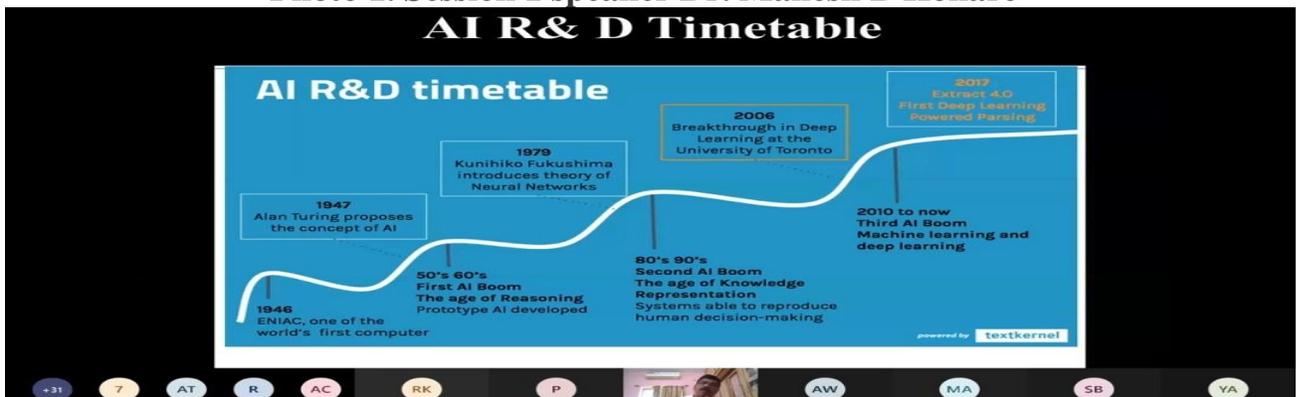

## Machine Learning Applications and Research Challenges

**Manesh B Kokare, Ph.D. (IIT Kharagpur)**  
(BOYSCAST Post Doctoral Research Fellow, University of California Santa Barbara, USA)

Professor and Head  
 Department of Electronics and Telecommunication Engineering  
 S G G S Institute of Engineering and Technology Nanded (MS)  
 Email: mbkokare@sggs.ac.in Mob: 9421474393

**Photo 1. Session 1 speaker Dr. Mahesh B Kokare**  
**AI R& D Timetable**

**Photo 2. AI R&D Developments and advancements**

## Time Line of AI Breakthroughs

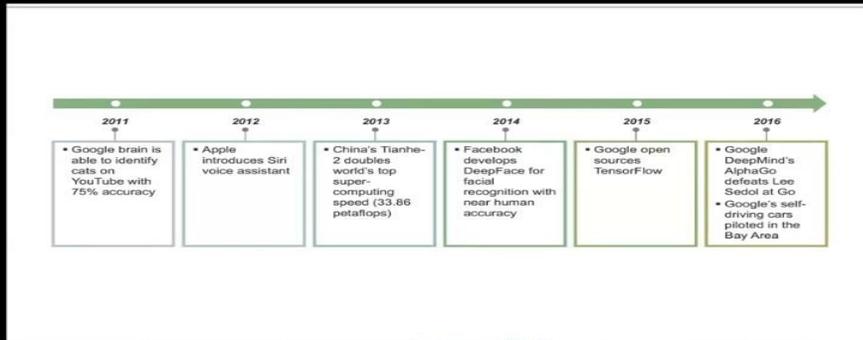

Photo 3. Areas where artificial intelligence plays an important roll

## ML for Justice

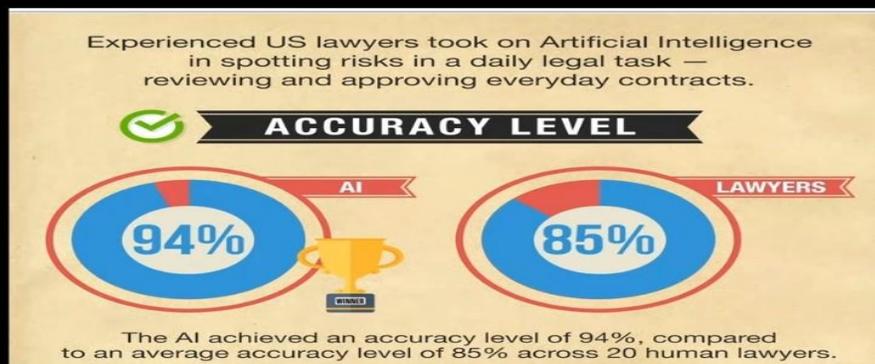

Photo 4. Accuracy level of the machines when working with artificial intelligence than human working.

## ML in Industry

- Take for example these electric towers, which require some degree of maintenance to check for degrees of rust and other structural defects.
- Certainly, manually climbing up the tower to scour every inch and corner would be extremely time consuming and costly.

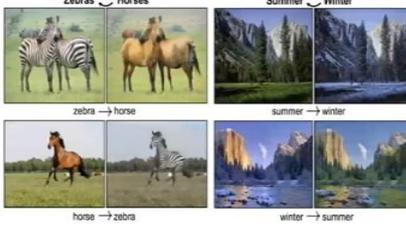

Step 1: Divide row image into grid to classify where in image to "zoom in"

Step 2: Create high-level "is it metal?" classifier. Train classifier on what to look for

Class 1: Metal Structures	Class 2: Other Structures	Regression: Area Interest

Photo 5. Machine learning is part of AI which is used in Industry and biometrics

## Recent Research in ML

The image shows a grid of six pairs of images. The top row shows 'Zebra → Horse' and 'Summer → Winter'. The bottom row shows 'Horse → Zebra' and 'Winter → Summer'. Each pair consists of an original image on the left and a transformed image on the right. The transformations are: a zebra becoming a horse, a summer landscape becoming a winter landscape, a horse becoming a zebra, and a winter landscape becoming a summer landscape.

- How cool is it to convert an image of a horse to a zebra and vice versa, or to change the scene of an image from summer to winter?
- Image to image translation is about this.
- The UC Berkeley Research Team is working on converting an image from one representation of a scene to another.

Photo 6. Machine learning researches are used like image translations

## Types of Learning

- **Supervised (inductive) learning**
  - Training data includes desired outputs
- **Unsupervised learning**
  - Training data does not include desired outputs
- **Semi-supervised learning**
  - Training data includes a few desired outputs
- **Reinforcement learning**
  - Rewards from sequence of actions

Photo 7. Types of Learning under the head Machine Learning

## Anybody can Dance Now?

- Everybody Dance Now is a project that uses computer vision techniques for performing motion transfer from one subject to another.
- A person performing dance moves, the person's dance moves can then be transferred to an amateur target.
- [Anybody can dance now.](#)

Photo 8. Application of AI and ML

# Industries in AI and ML

**Artificial Intelligence**  
Contact: [info@venturescanner.com](mailto:info@venturescanner.com)  
to see all 957 companies

Photo 9. Various industries consisting machine learning and AI based work

## 1. Fine-tuned Personalization

- 90 % recent data is generated from smart devices that connect our phones, wrists, and homes.
- This enables companies have more ways than ever to build relationships with their customers.
- Using ML, companies can fine-tune their target audience to inform product development, marketing, and sales.
- With algorithms to break down exactly how their products are being used, developers can customize products far more precisely for maximizing value for company and the consumer.”

Photo 10. Application of AI and Machine learning

## Why AI and ML is on the Rise?

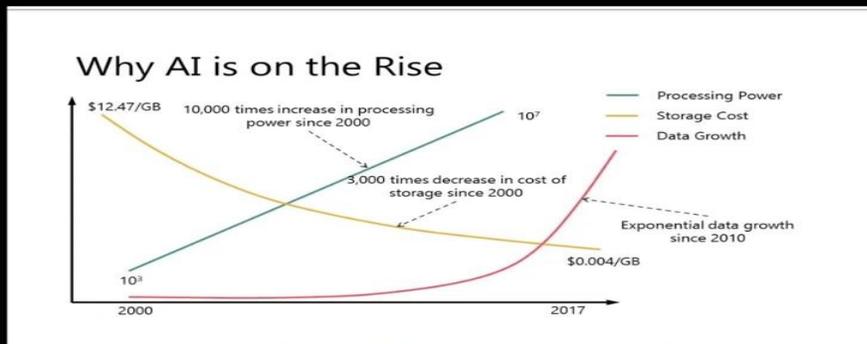

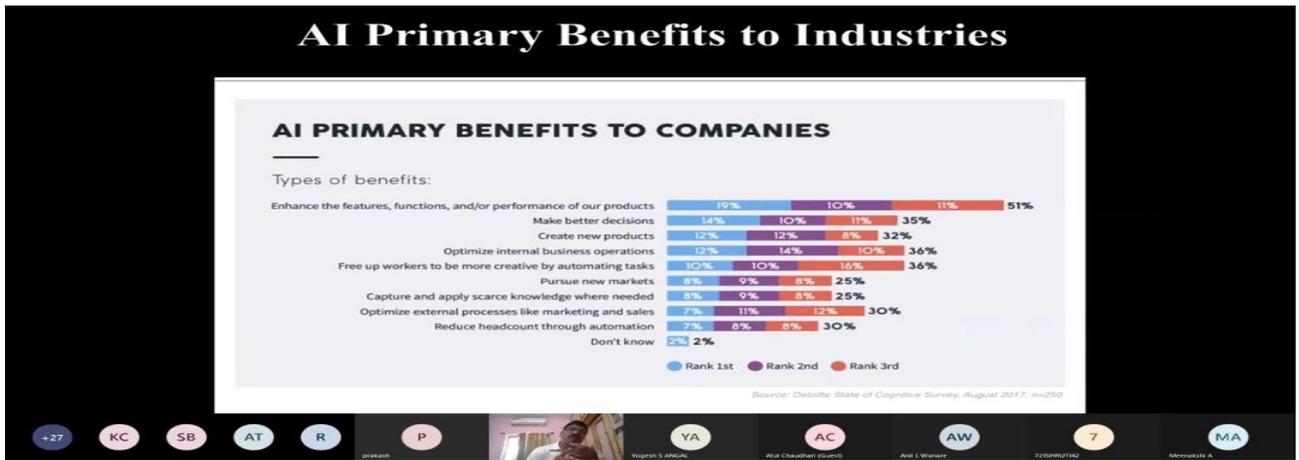

Photo 11. Graph of data growth, storage cost and processing power

**Photo 12. Primary benefits to companies**

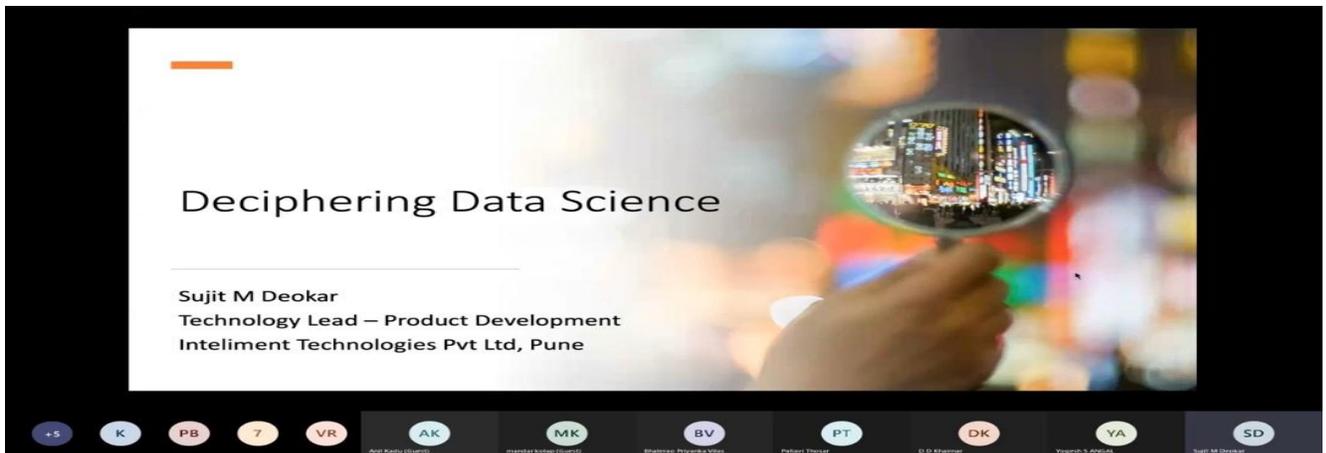

Question Answer Session was interactive, participants asked questions. All the queries of students are nicely answered by guest Dr. Mahesh Kokare sir. Session ends with Vote of thanks.

Session 2:	Mr. Sujit Deokar , Technology Lead, Product Development at Inteliment., Topic: Deciphering Data science, Machine learning use cases.
------------	---

**Session Objectives**

01	To learn deciphering of data science
02	To learn machine learning
03	To discuss application of it

Second session of 12 Dec 2020 delivered by Mr. Sujit M. Deokar on Deciphering of data science and machine learning uses. Session was interactive participants learned about the various technics used in data science encription and decreptions.

**Photo 13. Second session by Mr. Sujit Deokar**

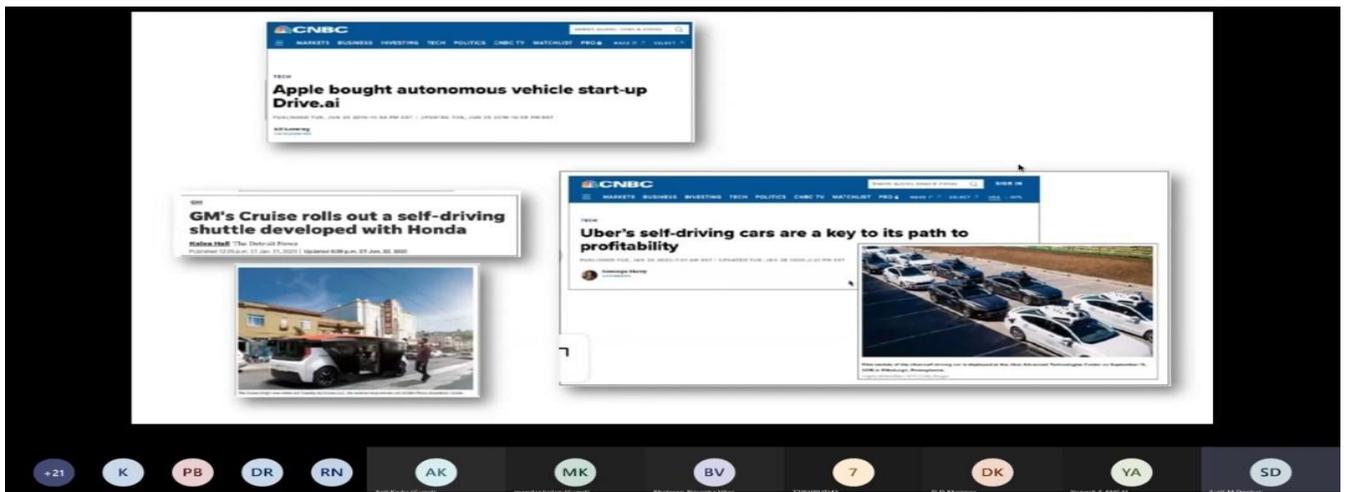

Photo 14. Applications of Machine learning and data science

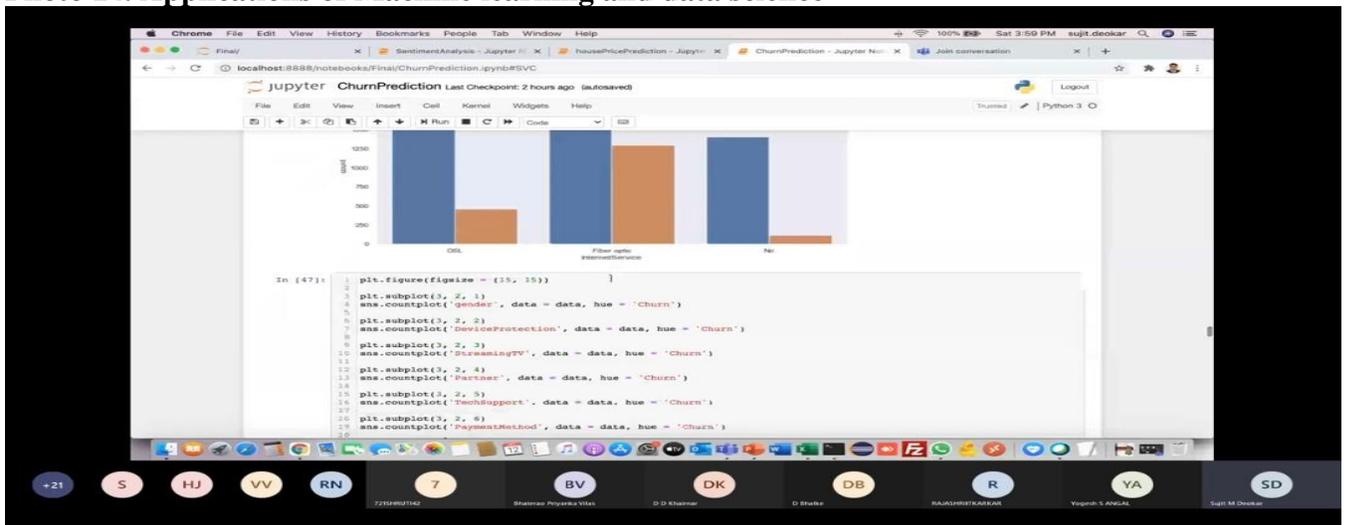

Photo 15. Algorithms used in data science

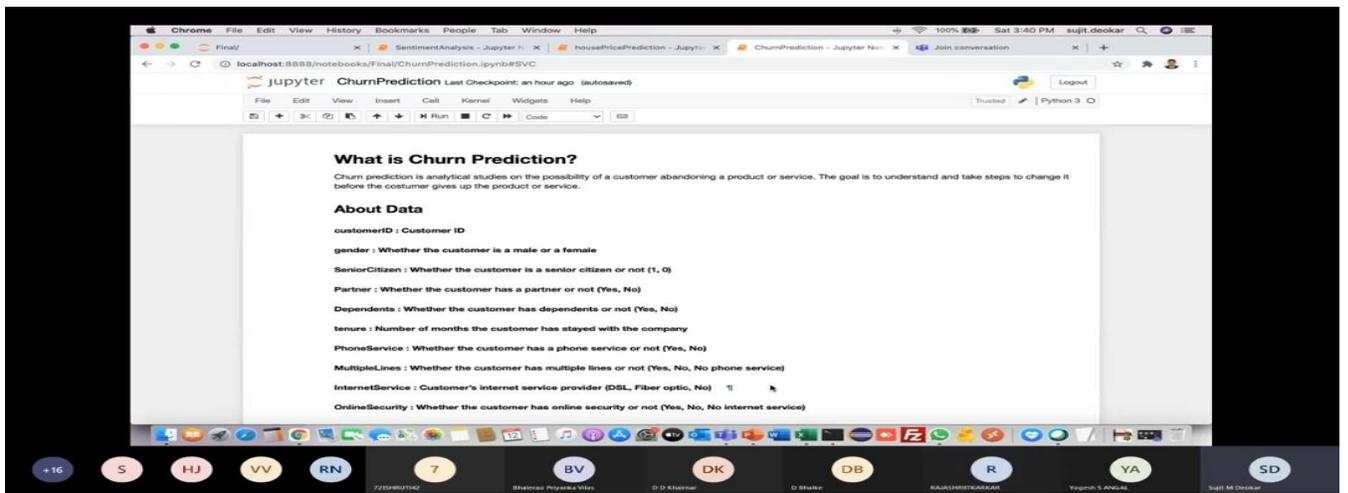

Photo 16. Churn predictions about data and its subtopics

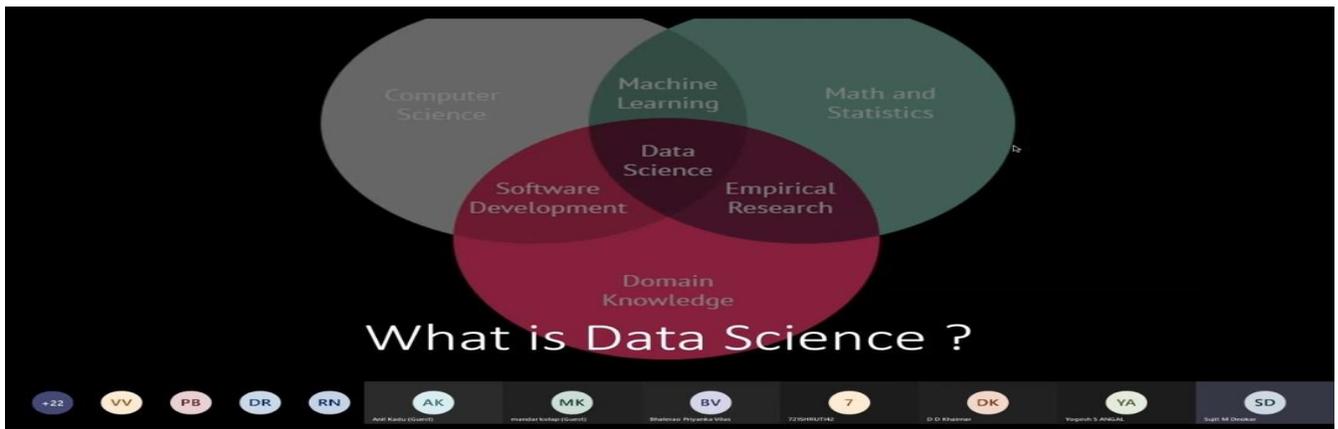

Photo 17. Data science basic model

**Modelling stage**

- Determine the optimal data features for the machine-learning model.
- Create an informative machine-learning model that predicts the target most accurately.
- Create a machine-learning model that's suitable for production.
- There are three main tasks addressed in this stage:
  - **Feature engineering:** Create data features from the raw data to facilitate model training.
  - **Model training:** Find the model that answers the question most accurately by comparing their success metrics.
  - Determine if your model is suitable for **production**.

<https://docs.microsoft.com/en-us/azure/machine-learning/team-data-science-process/>

A small diagram in the top right corner shows a flow: Feature Engineering leads to Model Training, which leads to Model Evaluation. There are also arrows pointing from Model Training back to Feature Engineering and from Model Evaluation back to Model Training.

Photo 18. Modeling stages in machine learning

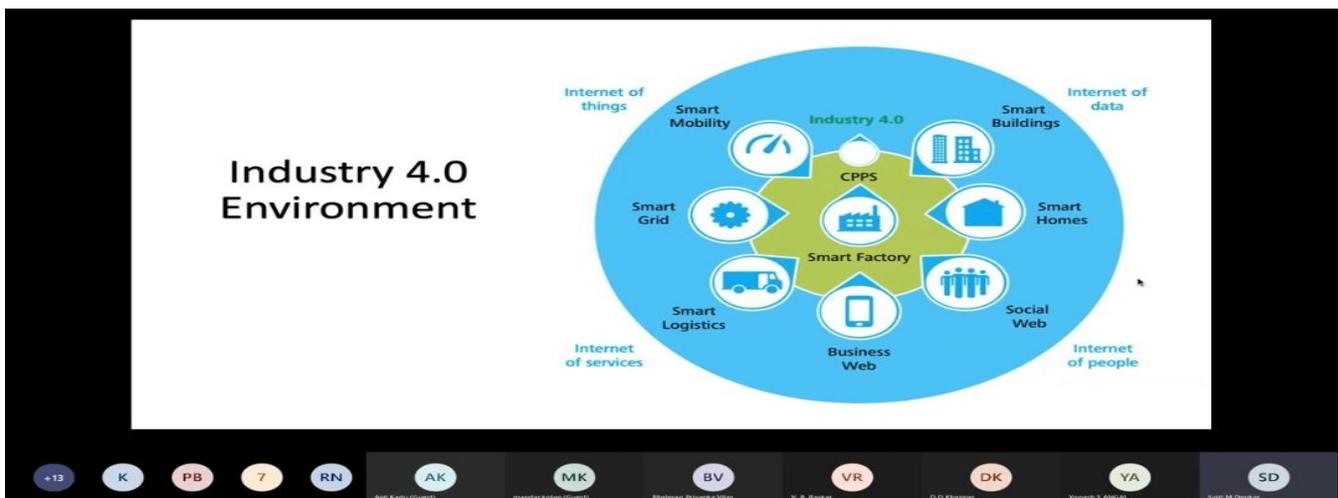

Photo 19. Stages in machine learning used for industry environment

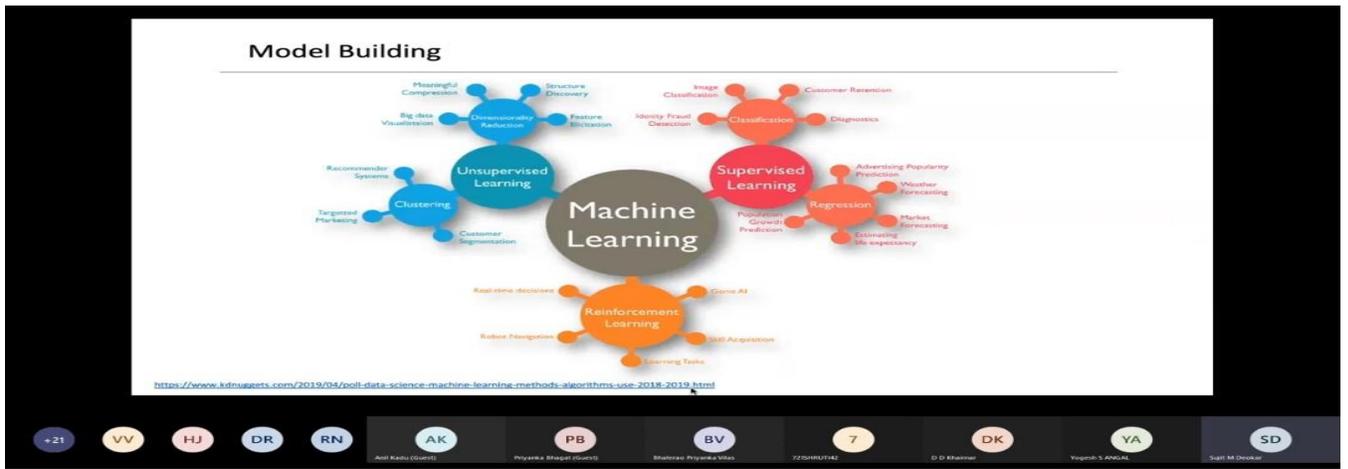

Photo 20. Model of machine Learning

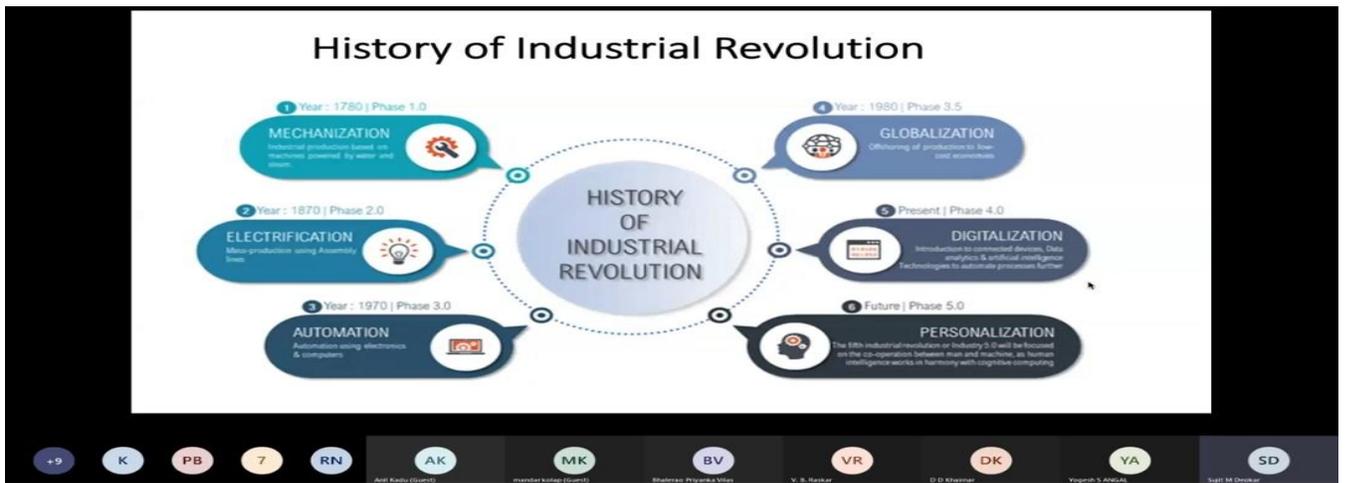

Photo 21. History of industrial revolution

**Feedback of SESSION-1 AND SESSION-2**

Feedback given by participants on Technical Delivery, usefulness of Topic for further developments. Sessions were very effective as per the feedback received from the Participants

Quizzes on every session for 10-15 questions were framed to evaluate understanding of the of the sessions by the Participants.

**Duration: (40 Hrs)**

<b>Sr. No.</b>	<b>Date</b>	<b>Session one : Time</b>	<b>Session two : Time</b>	<b>Total Duration in Hrs</b>
1	07/12/2020	10:00 to 1:30	2:00 to 5:30	7
2	08/12/2020	10:00 to 1:30	2:00 to 5:30	7
3	09/12/2020	10:00 to 1:30	2:00 to 5:30	7
4	10/12/2020	10:00 to 1:30	2:00 to 5:30	7
5	11/12/2020	10:00 to 1:00	2:00 to 5:00	6
6	12/12/2020	10:00 to 1:00	2:00 to 5:00	6
Total Duration from 07 Dec. 2020 to 12/12/2020				40 Hrs

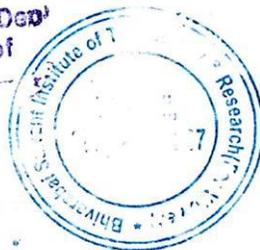

**List of Students Enrolled for add-on Course “Digital skill Development for Professionals”  
(Six Days: 40 Hours)  
(ONLINE-MODE: 07/12/2020 to 12/12/2020)**

**Summary Report on Program: “Digitization in Industries” organized by Department of Electronics and Telecommunication Engineering in association with INSTITUTE OF ELECTRONICS AND TELECOMMUNICATION ENGINEERS, Pune Centre.**

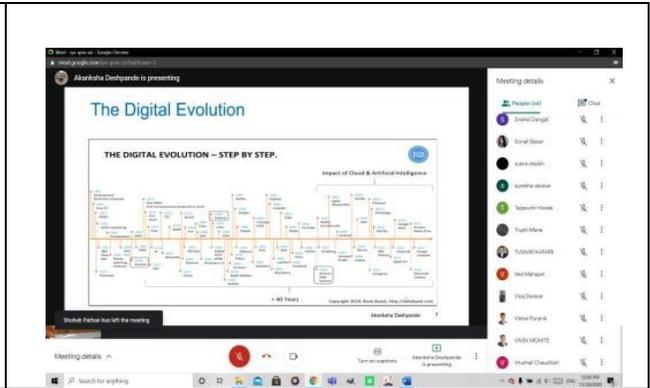

**Department of Electronics & Telecommunication Engineering**

<b>Event Name</b>	A Webinar on “Digitization in Industries”
<b>Centre (name)</b>	IETE, Pune Centre.
<b>Venue (College/Institute)</b>	JSPM’s, Bhivarabai Sawant Institute of Technology & Research, Wagholi, Pune.
<b>Date &amp; Time</b>	28/11/2020
<b>Chief Guest</b>	Ms. Akanksha Deshpande, Siemens, Pune.
<b>Topic of Chief Guest Speech &amp; Highlights</b>	This webinar is scheduled for the students & faculty members to get acquainted with all the requirements & significance of industrial digitization. The eminent speaker focuses on the key points, industries are transforming themselves. By giving examples the speaker explained all her points and provided the audience with all information of industrial digitization.
<b>Important dignitaries attended</b>	Dr. R.D. Kharadkar, Chairman, IETE, Pune Centre. Dr. S.V. Admane, Director, JSPM Wagholi Dr. T.K. Nagaraj, Principal, JSPM’s BSIOTR, Wagholi, Pune. Dr. Y.S. Angal, Vice- Chairman, IETE, Pune Centre.
<b>About the Event</b>	The theme of this seminar is to discuss on what are the requirements & demands of industry today. This webinar is scheduled for the students & faculty members to get acquainted with all the requirements & significance of industrial digitization. The eminent speaker focuses on the key points, industries are transforming themselves. By giving various examples, the speaker explained all her points and provided the audience with all information of digital evolution. The speaker concluded her session by explaining Siemens, an industry transforming themselves with vision of digitization of industries.

Sr. No.	Name of Students	Class	Remark
1	AGARWAL RAHUL SATISH	BE-E&TC	Attended
2	AKANKSHA KUMARI	BE-E&TC	Attended
3	GAIKWAD AKASH ANKUSH	BE-E&TC	Attended
4	BHOGADE ANKITA	BE-E&TC	Attended
5	CHAUDHARI SNEHAL TUKARAM	BE-E&TC	Attended
6	CHAVARE PRASAD RAJKUMAR	BE-E&TC	Attended
7	DHANE SHITAL GANPAT	BE-E&TC	Attended
8	DHANE AMITA SHARAD	BE-E&TC	Attended
9	GADADE POONAM DADABHAU	BE-E&TC	Attended
10	GADADE SHIVRAJ PRAKASH	BE-E&TC	Attended
11	GADE SHUBHAM VASANTRAO	BE-E&TC	Attended
12	JADHAV MADHURI GOVIND	BE-E&TC	Attended
13	JAGTAP GANESH KESHAV	BE-E&TC	Attended
14	KACHHAWA KAVITA RAJENDRA	BE-E&TC	Attended
15	KAGANE NAYAN ANNA	BE-E&TC	Attended
16	KAKADE PRANJALI DAYANAND	BE-E&TC	Attended
17	KAWADE SHUBHAM PANDURANG	BE-E&TC	Attended
18	KHADE SACHIN ASHOK	BE-E&TC	Attended
19	KHAIRE SAYALI PRAKASH	BE-E&TC	Attended
20	KULKARNI PUJA INDRAJEET	BE-E&TC	Attended
21	LAVARE SHAKUNTALA DATTATRAYA	BE-E&TC	Attended
22	MAHAJAN GAYATRI SHASHIKANT	BE-E&TC	Attended
23	MATEKAR SHILA SHARAD	BE-E&TC	Attended
24	MUJAWAR AKRAM HASANSAB	BE-E&TC	Attended
25	NEGWADE KALPANA BIBISHAN	BE-E&TC	Attended
26	PALLE PRAJAKTA RAVI	BE-E&TC	Attended
27	PATIL PRANVI VIJAY	BE-E&TC	Attended
28	PURANIK ANEESH ATUL	BE-E&TC	Attended
29	RANSING DIPALI BAPU	BE-E&TC	Attended
30	RASAL SHIVKANYA ANIL	BE-E&TC	Attended
31	SAVALE ABHIJIT RAJENDRA	BE-E&TC	Attended
32	SHINDE ANKITA PRAVIN	BE-E&TC	Attended
33	SOLEPATIL ADITI AVINASH	BE-E&TC	Attended
34	TANPURE MAHESH PRAKASH	BE-E&TC	Attended
35	THORAT POOJA ARJUN	BE-E&TC	Attended
36	VETAL VIJAYA DATTATRAYA	BE-E&TC	Attended
37	BHALKE VIKAS POPAT	BE-E&TC	Attended
38	ZARE VIJAY GANGADHAR	BE-E&TC	Attended

39	BHANDARE SHIVANI VITTAL	TE-E&TC	Attended
40	KARGAL KAVITA MAHADU	TE-E&TC	Attended
41	KATKAR SHRDDHA SHIVAJI	TE-E&TC	Attended
42	MANE TRUPTI SHIVAJI	TE-E&TC	Attended
43	SHARDUL AJAY PATIL	TE-E&TC	Attended
44	DEOKAR VIRAJ VIJAY	TE-E&TC	Attended
45	CHAVHAN DHANASHREE SHANKAR	TE-E&TC	Attended
46	DHAKTODE GAURI EKNATH	TE-E&TC	Attended
47	SHELKE NIKITA ASHOK	TE-E&TC	Attended
48	WAVHAL SHREYA SANDIP	TE-E&TC	Attended
49	HARGUDE SHRADHA SUNIL	TE-E&TC	Attended
50	PAYGUDE KAJAL NAVANATH	TE-E&TC	Attended
51	POOJA GUNDERAO NIKAM	TE-E&TC	Attended
52	LONDHE TRIVENI KESHAV	TE-E&TC	Attended
53	JADHAV SANIYA RAJENDRA	TE-E&TC	Attended
54	LATWADE GOURI UDAY	TE-E&TC	Attended
55	NIKHIL SANJAY PUNEKAR	TE-E&TC	Attended
56	SNEHAL DNYANESHWAR KHAWSHI	TE-E&TC	Attended
57	WAGHMODE PRAJAKTA CHANDRAKANT	TE-E&TC	Attended
58	KADAM PRANAV PARSHURAM	TE-E&TC	Attended
59	KUTE SNEHAL SUDHAKAR	TE-E&TC	Attended
60	GARGOTE PRITAM ARJUN	TE-E&TC	Attended
61	SHINDE ROHAN RAJU	TE-E&TC	Attended
62	MALAV AKSHAY DATTATRAY	TE-E&TC	Attended
63	AHER RAJKANYA KISAN	TE-E&TC	Attended
64	GHENAND RAHUL KANHU	TE-E&TC	Attended
65	BHOSALE AKASH SATISH	TE-E&TC	Attended
66	KALE MAHESH RAMESH	TE-E&TC	Attended
67	DIPALI SHIVARAJ SHAMBALE	TE-E&TC	Attended
68	YADAV ASMITA ANAND	TE-E&TC	Attended
69	PATIL NAYAN	TE-E&TC	Attended
70	GAWHALE SHRIKRUSHNA TULASHIRAM	TE-E&TC	Attended
71	KOHAKADE POOJA UTTAMRAO	TE-E&TC	Attended
72	BABAR SONALI RAVINDRA	TE-E&TC	Attended
