Department of Electronics and Telecommunication Engineering contineously organizing Technical activities for the students as part of that Department has arranged one day visit to vidyan ashram located at pabal.

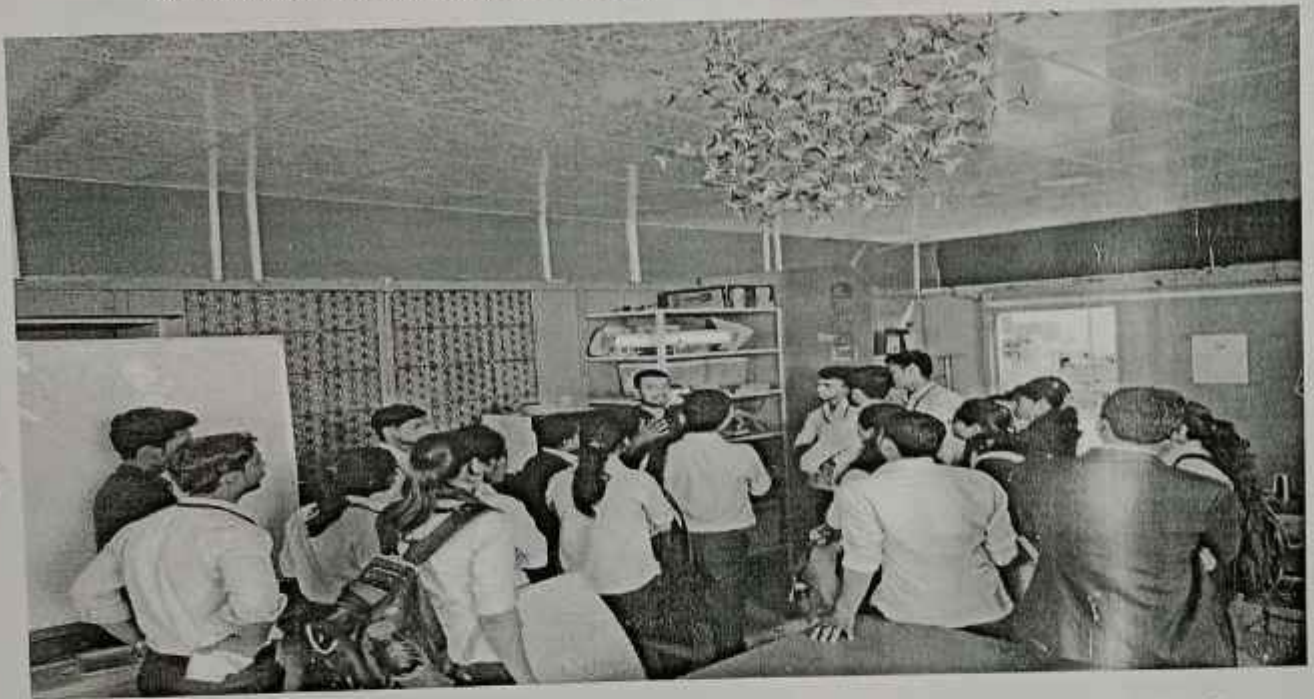

It is a center of Indian Institute of Education (IIE) Pune established by Dr. S. S. Kalbag in 1983. It's a modern version of the old Gurukula systems of 'simple living and high thinking'. Vigyan Ashram is located in the village Pabal, approx. 70 km (43 mi) from Pune. It is situated on Shirur Road, Rajgurunagar. Population of Pabal is 10,000. There are several small hamlets attached to Pabal, which make Pabal central market place. Pabal is drought-prone and is a truly representative Indian village. The idea of establishing Vigyan Ashram at Pabal is whatever they do at Ashram can be replicated in any part of the country. In English "Vigyan" means 'Search of Truth' and "Ashram" symbolizes 'Simple living and high thinking for us, an organization where all are equal, a modern version of the old Gurukul system'.

Student are addressed by the researcher at vidyan ashram

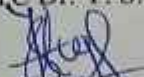

Students visited various projects available at the location and they are guided by the scientist working at Vidyan Ashram which includes farming technology and solar based energy generation systems.

The idea of celebrating Teachers' Day is that they celebrate a local educator or an important milestone in education. This is the primary reason of celebrating this day. In India, Teachers' Day is traditionally observed as a day to venerate teachers, the birth date of the second President of India, Sarvepalli Radhakrishnan, 5 September 1888, has been celebrated as Teacher's Day since 1962.

**Some Glimpses of student participation:**

On that day, teachers and students reported to college as usual but the usual activities and classes were replaced by activities of celebration, thanks and remembrance. Senior students took the responsibility of teaching in order to show their appreciation for the teachers. The students paid homage to their teachers through poems and speeches.

The Engineering Community across India celebrates Engineers Day on 15 September every year as a tribute to the greatest Indian Engineer Bharat Ratna Mokshagundam Visvesvaraya. **The theme of Engineers Day in India 2018 was Digital Transformation: A New Industrial Revolution".**

Mokshagundam Visvesvaraya, born on 15 September, 1861, in Muddenahalli near Chikkaballapur. He went on to become India's most prolific civil engineer, dam builder, economist, statesman, and can be counted among the last century's foremost nation-builders.

### **Tradition in Indian Academics**

Guru Purnima (Poornima) also known as Vyasa Purnima marks the birthday of Ved Vyasa. It is a spiritual tradition in Indian culture dedicated to spiritual and academic teachers, who are enlightened humans, ready to share their wisdom, with very little or no monetary expectation, based on Karma Yoga. This festival is traditionally observed by Indians to revere their chosen spiritual teachers / leaders and express their gratitude. The festival is celebrated on the full moon day (Purnima) in the Hindu month of Ashadha (June–July) as it is known in the Hindu calendar of India. This year it was celebrated on 16/07/2019.

Irrespective of their religions, Indian academics celebrate this day by thanking their teachers. Our colleges had events in which students thank their teachers and presented gifts as a gesture of gratitude.

The main tradition among guru-shishya was blessings (i.e. student greet his/her guru) by reciting poetry or quote and the guru given blessings for success and happiness of an individual. In short, guru purnima is a traditional way of Indians celebrating Teacher's Day.

Department of Electronics and Telecommunication Engineering contineously organizing Technical activities for the students as part of that Department has arranged one day visit to "Kutuhul 2020" an exhibition on advances in healthcare system with a theme of revealing journey from "pre bith to re birth" at SP College Ground Tilak Road, Pune From 6<sup>th</sup> feb 2 to 10<sup>th</sup> feb 2020.

The journey between birth and death is 'Life'. It is enjoyable with sound health. Medical profession and health care appliances form a backbone of health management. Role of these technologies start even before the birth and continues after the death, i. e from Pre-birth to Re-birth. Here rebirth is considered in terms of organ donation, which is possible because of advancements in medical technologies. The curiosity to know how all of this works has conceptualized the theme of Kutuhul.

**Photo 1: Students and faculty going to visit the Kutuhul 2020 by college bus**

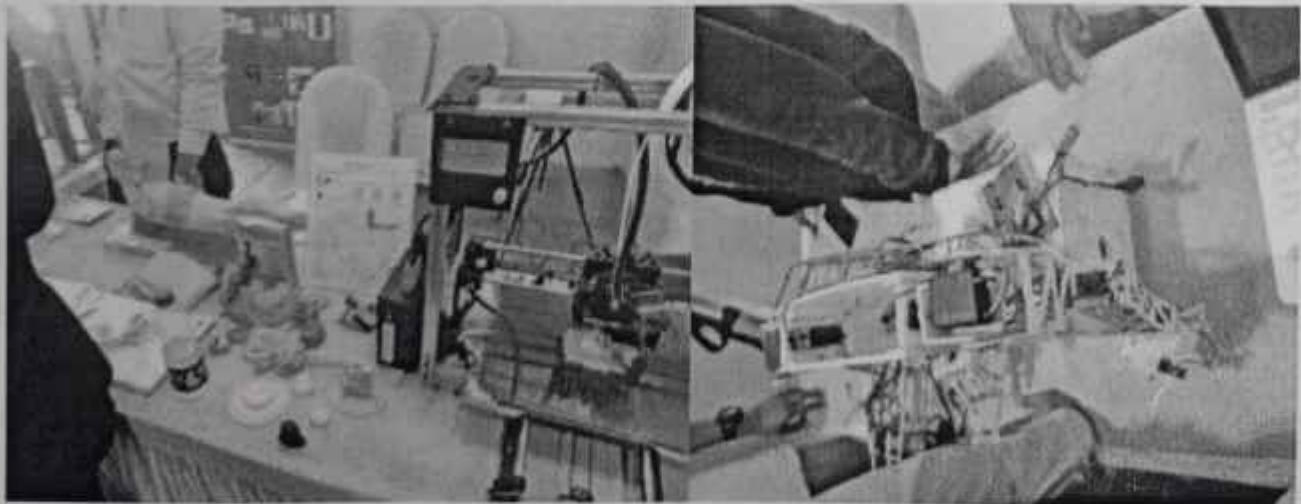

Kutuhul has focus on revealing the inside story of medical appliances ranging from Blood Pressure measurement apparatus to ultra-modern CT scan machine and from the simple stethoscope to the futuristic endoscope.

The principles of various techniques and tools used in medical procedures have explained by technical experts, service engineers of manufacturers and student volunteers of medical colleges as well as engineering colleges.

### Aarogya Setu

On 2nd April 2020, India launched Aarogya Setu mobile App for helping augment the efforts of limiting the spread of COVID19, with an objective of enabling Bluetooth based contact tracing, mapping of likely hotspots and dissemination of relevant information about COVID19. The App has over 114 million users as on 26th May, which is more than any other Contact Tracing App in the world. The App is available in 12 languages and on android, iOS and KaiOS platforms. Citizens across the country are using Aarogya Setu to protect themselves, their loved ones and the nation. Many youngsters also call Setu as their Bodyguard. The key pillars of Aarogya Setu have been transparency, privacy and security and in line with India's policy on Open Source Software, the source code of Aarogya Setu has now been made open source. The source code for the Android version of the application is available for review and collaboration at [https://github.com/nic-delhi/AarogyaSetu\\_Android.git](https://github.com/nic-delhi/AarogyaSetu_Android.git). The iOS version of the application will be released as open source within the next two weeks and the server code will be released subsequently. Almost 98% of Aarogya Setu Users are on Android platform.

The Government of India, by opening the product design and code, has also demonstrated its strong commitment to contributing to the global good. India is keen to share learnings from our approach to technology to fight COVID-19 and make the benefits of the solution available to the rest of the world and any government can use it for fighting the pandemic. Together we can, and we continue supporting the doctors and frontline health work in helping fight this pandemic.

### **Integrated Govt. Online training portal for COVID 19**

India is fighting against covid-19 Pandemic and India's first line of workers is already engaged in COVID relief and doing commendable job. However, a larger force will be needed to replace the first line and to tackle the exponential or geometric increase in positive COVID cases in the subsequent stages of the pandemic.

Accordingly, to take care of the training needs of the frontline workers, the Government of India has launched a training module for management of COVID-19 named 'Integrated Govt. Online training' (iGOT) portal on Ministry of HRD's DIKSHA platform for the capacity building of frontline workers to handle the pandemic efficiently.

Courses on iGOT have been launched for Doctors, Nurses, Paramedics, Hygiene Workers, Technicians, Auxiliary Nursing Midwives (ANMs), State Government Officers, Civil Defence Officers, Various Police Organisations, National Cadet Corps (NCC), Nehru Yuva Kendra Sangathan (NYKS), **National Service Scheme**, Indian Red Cross Society, Bharat Scouts and Guides and other volunteers.

The training contents of the course include Basics of COVID, clinical management, ICU care management, infection prevention and care, usage of PPE, quarantine and isolation, training for NCC cadets, management of COVID 19 cases, laboratory sample collection and testing, psychological care of patients, paediatric care in COVID, pregnancy during COVID, etc. The new learning content is being regularly added to the modules.

The platform provides the training module on flexitime and on site basis so that the COVID response can be delivered at scale for the workforce needed to tackle the pandemic.

Our NSS volunteers also take part in it. So many volunteers register Online training' (iGOT) portal on Ministry of HRD's DIKSHA platform for the capacity building of frontline workers to handle the pandemic efficiently.

Essay on  
COVID 19

The global impact of covid 19, the disease caused by the novel coronavirus, means colleges and prospective students alike use in for an admissions cycle like no other. Both face unprecedented challenges and questions as they grapple with their respective futures amid the ongoing fallout of the pandemic.

Definitely COVID 19 is dangerous virus. If you have cough, fever and difficulty breathing seek medical care early or call your health facility center by telephone first.

The coronavirus disease (COVID 19) caused by a virus, not by bacteria. The virus that causes COVID-19 is in a family of viruses called coronaviruses. Antibiotics do not work against viruses. Some people who become ill with COVID can also develop a bacterial infection as a complication, in this case antibiotics may be recommended by a health care provider.

strict guidelines that have been established by the learning institution. As such, students have to adhere to the established time schedules. On the other hand, students attending online courses can learn at their own time and pace.

One advantage of the traditional classes over online classes is that students who are not disciplined enough may not be able to self-through successfully because there is nobody to push them around with traditional classes. However, there are rules to put them in check. As such, students attending traditional classes are more likely to be committed to their education.

Another advantage of the traditional classes is all the doubts that students might be having regarding a given course content can be cleared by the instructor on the spot, unlike online learning whereby such explanations might not be as coherent as the student would have wished.

Online learning is convenient and has less basic requirements compared with traditional learning. It also allows learners who would have ordinarily not gone back to school to access an education. However, online students don't benefit from a close interaction with their peers and instructors as do their regular counterparts. Also, regular students can engage their instructor more easily and relatively faster to solve they want to have certain sections of the course explained, unlike online students.

Online Teaching Vs Offline Teaching

Modern technology has infiltrated the education sector and as a result, many college students now prefer taking online classes as opposed to attending the traditional regular classes. This is because online classes are convenient for such students, and more so for those who have to both work and attend classes.

As such, online learning gives them the flexibility that they needed. In addition, online learning also gives an opportunity to students and professionals who would not have otherwise gone back to school to get the necessary qualifications. However, students who have enrolled for online learning do not benefit from the one-on-one interaction with their peers and teachers. The essay shall endeavor to examine the differences between online classes and the traditional classes, with a preference for the latter.

Online classes mostly take place through the internet. As such, online classes lack the regular student-teacher interaction that is common with traditional learning. On the other hand, learning in traditional classes involves direct interaction between the student and the instructor.

This is beneficial to both the learner and the instructor because both can be able to establish a bond. In addition, student attending the traditional classroom often have to adhere to

"NSS - Not me But you"

National service scheme means NSS is beneficial to both students as well as society in various different ways. NSS helps the student to grow individually and also as a group. It makes the student confident, develop leadership skills, and gain knowledge about different people from different walks of life. COVID - 19

Coronaviruses are a large family of viruses cause illness ranging from the common cold to more severe diseases such as Middle East Respiratory Syndrome and severe acute respiratory syndrome. A novel coronavirus is a new strain that has not been previously identified in humans.

Due to spread of corona virus everyone had to face many difficulties. On the other hand corona has taught us important lessons.

Coronaviruses are zoonotic, meaning they are transmitted between animals and people. Detailed investigations found that SARS-CoV was transmitted from civet cats to humans and MERS-CoV from camels to humans. Several known coronaviruses are circulating in animals that have not yet infected humans.

Common signs of infection include respiratory symptoms, fever, cough, shortness of breath and breathing difficulties. In more severe cases, infection can cause pneumonia, severe acute respiratory syndrome, kidney failure and even death.

Standard recommendations to prevent infection spread include regular hand washing, covering mouth and nose when coughing and sneezing, thoroughly cooking meat and eggs. Avoid close contact with anyone showing symptoms of respiratory illness such as coughing and sneezing.

Topic Name - Lockdown

The whole world has come to a standstill, and the reason is the pandemic COVID-19. All of a sudden, it seems we are a part of horror movie. The villainous Coronavirus is killing thousands of peoples, and we are feeling helpless. It has turned our lives upside down. Even in our dreams, we could not have imagined over ourselves confined to our homes, with no outings and unable to meet our friends, friends & relatives.

Reasonably, the situation has given us a chance to look at things differently. In the beginning, this lockdown was considered as holidays by some children, like me. Once extended, it has made us realize the value of attending college. We appreciate the hard work of our teachers who are trying their best to teach us through online classes and providing us with study material. Teachers are not leaving any stone unturned so that we do not waste our precious time sitting idle. Although initially taking online classes was a challenge for them, they have quickly adapted so that our academic pursuits not get affected. This has taught us

"Never to run away from challenges when life throws them upon us."

and try to adapt according to the situation."

These hard times are teaching us the value of everyday food items, like fruits, vegetables, and groceries in our lives. They have become so valuable that nowadays they are not readily available. We are learning to manage ourselves with limited resources. We have learned to respect our farmers, and the vendors who are bringing these essentials to our doorsteps. We have realized that we should never waste food because many people are unable to have a single meal during this lockdown period. It has also taught us life beyond junk food. As now we know that delicious food can be cooked at home too. We are more alert about personal hygiene & cleanliness.

The lockdown has also made us appreciate our parents, who usually work day and night to fulfill our reasonable demands and never complain. Spending more time with them give us opportunity to understand them and to learn about quality time is. Life is not about only studies, TV, and games. It is about sharing & standing with each other during any phase of life.

lockdown is giving us many lessons about life. We have learnt to handle difficulties with a positive mind, and I hope these lessons remain with us throughout life.

"There is a end to every nightmare, if this one shall end too."

Online learning vs. Offline learning

Being in a traditional classroom provides students with an opportunity to reference freedom and interact with world. Putting a student in a room with a computer means that the student will never be able to bond with the professor and other students.

When studying online, it becomes difficult for students to clear their doubts. It is hard for a student to clarify something that he/she does not understand. This is because the student cannot consult an expert on that subject for further clarification. Students do not have the same ability to understand concepts. In a traditional classroom, setting the student in direct contact with the professors, library, laboratory, and peer students in a traditional classroom, the student is able to ask questions and get different interpretations of the problem. Moreover, he/she can gain an experience of using multiple methods of answering of the solution. These methods provide adequate resources for students to clear doubts. This is not possible in an online learning program.

Adult students are better suited to take up online classes than younger students. This is because adult students already have had a real

life experience in a working environment. They are usually an already working and have families that depend on them. These people are able to portray a high level of responsibility while taking up their classes often people who study online have working experience in the area they are trying to acquire a degree. Therefore, it becomes logical for these students to enroll in online degree programs. It is not necessary for these persons to adjust their working schedules, leave the family, and spend a lot of time travelling just to attend a traditional class.

Young high school students cannot gain the same benefits from online classes as experienced adult learners can. At their age, they require more attention because they have no working experience. They need a teacher to be there in person to help them understand and practice basic concepts.

Online classes are only necessary for people who are working and at the same time want to acquire a degree, or for people who have families and have to be at home to take care of children. Online education for experienced people and not for starters.

Adults go to college to get a promotion at the workplace. College campus has a lot of

social activities and provides a good environment for interaction. Online classes are only beneficial for people who are trying to work and study at the same time. Online learning is most suitable for people who have families and have to be at home to take care of children. Online learning cannot be as effective as traditional classroom learning.

It is possible to learn through online classes however, what one learns through online classes is not what one will need in life. Young students who enroll in online classes do not exploit their potential to the fullest. This is because these students are going through a social and brain development phase that requires interaction with their students as well as the dialogue with the tutor. Missing this opportunity may have lifelong implications for the student.

Online classes may be perceived as not having any distractions and can be taken up at the comfort of the home. However, it is important to note that distractions are everywhere, even at home. Distraction in a classroom is often beneficial to a student because all students in that class have a common goal to understand the concept taught.

Speech on organ donation

Good morning, to our honorable guest and respected parents and my friends.

I am Saijgi Kambale and I have been given the opportunity to deliver a speech on organ donation.

Organ donation is a social act that is looked upon with honour. India follows the opt-in system for organ donation. The Transplantation of Human Organs Act 1994 combats the organ donation in India. India's Ministry of Health and Family Welfare & Government website gives out legal forms for those wishing to donate an organ.

Organs are the vital tissues that make our entire body function, and when a particular organ fails, it requires immediate treatment to replace it with a new and healthy organ of the donor. Common organ transplantations include heart, liver, kidney, some marrow, pancreas, lungs, and eye.

Some organs like a kidney, a part of the pancreas or the liver, a part of the intestine can be donated to the ones in need by a living donor. But most of the organ donation takes place after the death of the donor.

Organ donation is a kind and helpful act by the donor. It can help to improve the quality of life for many individuals. An eye transplant could help a blind person see the beautiful world again. People can avoid costly routine treatments and opt for transplantations of organs by the donor.

The organs that are donated serve as tools for scientific researches and experiments. A medical student also gets to learn medical scans by the aid of donated organs. Biotechnology gains a lot of science from donated organs. Thousands of patients wait for transplantation, and some donors come into their lives as a ray of hope.

Organ donation is a noble deed but its force is still undervalued. The generous act of organ donation has gradually increased in the last twenty years and has shown excellent results in children and especially in the aged. Improvements of the results have been witnessed due to innovations and up-gradation of peri-operative management.

Organ transplant depends on the availability of human organs. Organs donated by a single person can save up to eight lives. Organ donation can be divided into three categories, which are directed donation in which the donor gets to choose the person

successing the organ. The second is the non-dissected donation, where the donor is not in the know of the person in need of organ transplantation. The third type of organ donation is the paired donation, where only the kidney is donated to the person in need.

Saving an individual's life by donating a vital organ is not only a courageous act but a respectable one as well. There is no age bar set to become a donor. Young, adults, elderly, all can participate in this charitable process.

Every person is eligible to become an organ donor. There are people in desperate need of organs hoping for survival. People should be made aware of organ donation so that more lives can be saved.

Thank you.

**Guest Lecture on Stress Management**

**Date : 16/03/21**

**Time : 11:00 am**

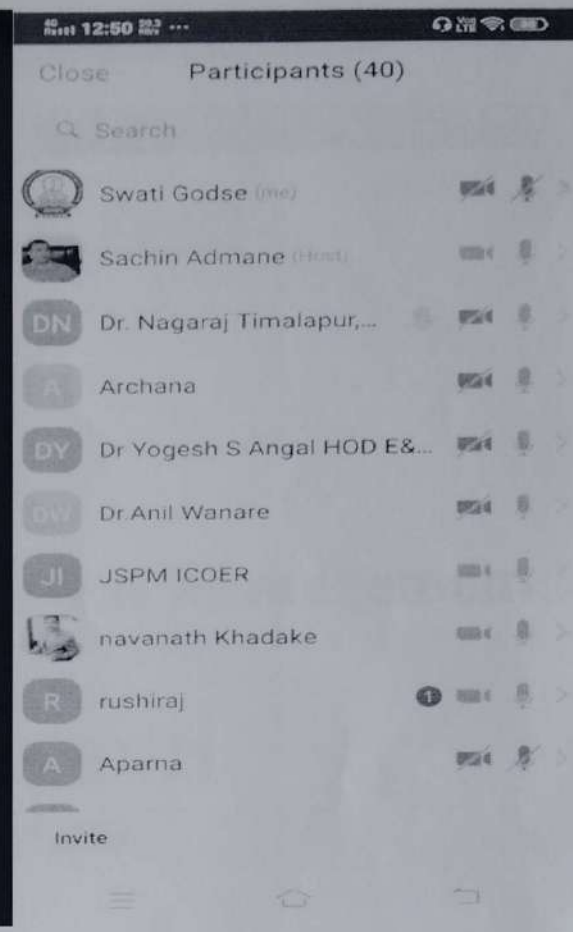

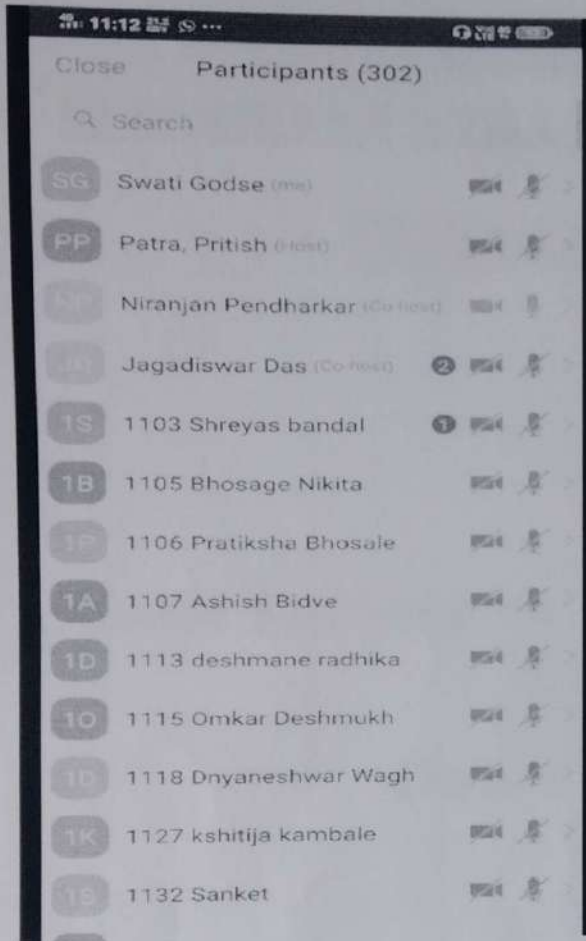

The programme started with the welcome of Prof. Jatti by HOD Dr.Swati Godse. After that Principal sir delivered a lecture on Stress Management. He explained how **Stress management** is a wide spectrum of techniques and psychotherapies aimed at controlling a person's level of stress, especially chronic stress, usually for the purpose of and for the motive of improving everyday functioning. Stress produces numerous physical and mental symptoms which vary according to each individual's situational factors. These can include a decline in physical health, such as headaches, chest pain, fatigue, and sleep problems,<sup>[1]</sup> as well as depression. The process of stress management is named as one of the keys to a happy and successful life in modern society. Life often delivers numerous demands that can be difficult to handle, but stress management provides a number of ways to manage anxiety and maintain overall well-being.

Despite stress often being thought of as a subjective experience, levels of stress are readily measurable; using various physiological tests, similar to those used in polygraphs. There are several models of stress management, each with distinctive explanations of mechanisms for controlling stress. Much more research is necessary to provide a better understanding of which mechanisms actually operate and are effective in practice.

He summarised the key stress management requirements. The students as well as faculty thoroughly enjoyed and gained ample awareness by the end of the session.

The platform was open for questions at the end of the session and the guest effortlessly answered all the queries.

The students of BSIOTR MANTHAN Club had taken an initiative to Organize "Secrets of Achievements" on date 16/09/2022. Tree plantation is one of the most important constituents of soft landscaping. Trees, shrubs and climbers have been used to enhance the soft natural ambience against harsh elements in most of the enhancement schemes. The planting species are decided based on the physical growth characteristics of trees, like form and shape, foliage pattern, growth rate, branching pattern, soil characteristics etc.

Students of BSIOTR MANTHAN Club of all departments organized event with enthusiasm. The tree planting was organized in systematic manner and ever students played their role very well.

All students of BSIOTR MANTHAN Club enjoyed this event with a lot of enthusiasm. In Presence of Dr. T. K. Nagaraj, Principal (BSIOTR) and Dr. Y. S. Angal, faculty Program Co-Ordinator of MANTHAN Club & HOD (E&TC) have inaugurated this event.

Dr. T. K. Nagaraj, Principal (BSIOTR) & Dr. Y. S. Angal, HOD (E&TC) given welcome speech and motivated all students. They congratulated all Students for their active participation.

#### **Plantation Pattern:**

- The first row along the college road to be planted with small to medium sized ornamental trees.
- Planting of shrubs in the median.
- Turfing with grasses in the median and embankment slopes.
- Planting of herbaceous species as ground cover in the median, special landscapes on embankment slopes.
- The last row to be planted with tall shade bearing trees for better road safety and for enhancing aesthetics.

Prof. Yeshwant in his deliberation emphasized the importance that should be given to human values and the respect that should be given to the constitution of India. Further he explained some important objectives of the constitution.

### **Sovereignty**

This entitles supreme, uncontrollable, and absolute powers to the government of our country. This is the backbone of our Indian constitution and protects the rights of the people. Sovereignty can be of two types, internal sovereignty and external sovereignty. Internal sovereignty entitles the states with the power to govern themselves and makes laws in certain cases if required. In contrast, external sovereignty declares government as the supreme authority and entitles it to cede a part of any territory if required.

### **Socialist**

It is one of the most important parts of the objectives of the Indian constitution. Socialism ensures equality among people and ensures their welfare. The main purpose of adding socialistic features to the Indian constitution is to ensure fair and equal opportunities for all concerning income and status. Socialism expels capitalism which is considered to be a threat to the economy. The main motto of this objective is to end all forms of discrimination and exploitation of any person based on their religion, caste, region, or creed.

### **Secularism**

This objective of the Indian constitution was introduced to ensure the maintenance of peace among different communities. It ensures the development and unity of various communities and religions. Secularism was added as a part of the Indian constitution during the 42nd amendment. Articles 25 to 28 of the Indian constitution ensure freedom of religion and prohibit any discrimination on the ground of religion. It is one of the aims and objectives of the salient features of the Indian constitution, and it was added to make clear that religion has no place in the matters of the state.

### **Democratic**

By including democracy as an objective of the Indian constitution, the constitution entitles the citizens of India with the power to govern. India has adopted parliamentary democracy, which ensures a responsible and stable government. The ruler of the country is elected by the people, and the ruler is later answerable to the people. Democracy ensures stability and entitles the people to change their rules as per their will and practice universal adult franchise, i.e. One man, one vote. Periodic conduct of elections is practised so that people are entitled to a right to elect their representatives.

### **Republic**

This concept was inspired by the constitution of France. It entitles people to the power to elect their representatives. The concept of a republic lays down the foundation of our country's government by ensuring that there will be no hereditary ruler, and the elections will be held at regular intervals of times to elect a representative and ruler of the people. Republic Indian is among the most important aims and objectives of the salient features of the Indian constitution.

### **Justice and liberty**

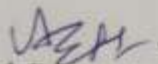

The objectives of the Indian constitution also include social, economic, and political justice and the liberty to follow any religion, any job, any work without the interference of the state. All the citizens of India are entitled to a basic set of fundamental rights that ensure and protect their interests. Freedom of expression, thought, belief, religion, worship, and faith are ensured to every single citizen of the country.

### Dignity

The constitution entitles every person to live their life with dignity. The government ensures quality life to all its citizens under Part 4 of the constitution. Every citizen has the right to live a meaningful life, and no one in any way can interfere in their way of living.

He also emphasized on the personality development by giving examples of Chatrapati Shivaji Maharaj, Shahu Maharaj and Dr, Babasaheb Ambedkar. He explained the importance of Discipline and how it should be maintain throughout one's life to be successful.

Mr. Aekagra Dhamani Personality Development Club Lead proposed the vote of thanks. Present on the occasion were Dr. T. K. Nagaraj, Program Director & Principal, BSIOTR, Pune, Dr. Y. S. Angal , Program Coordinator & HOD E&TC, BSIOTR, Pune

The students of BSIOTR MANTHAN Club of Department of General Science (FE Department) had taken an initiative to Organize **"Orphanage Visit"** on date 26-02-2023. This event was organized to create a healthy environment for the students so that students can enjoy other than their Academic responsibilities.

Students of BSIOTR MANTHAN Club of all Department students organized event with interest . The Orphanage Visit was organized in systematic manner.

Event was conducted on 26-02-2023. All students of BSIOTR MANTHAN Club enjoyed this event with a lot of enthusiasm. In Presence of Dr. T. K. Nagaraj, Principal (BSIOTR) and Dr. Y. S. Angal, Program Coordinator of MANTHAN Club & HOD (E&TC)

**The aim of organizing orphanage visit was promote health, literacy, education, and children's empowerment.**

Dr. Y. S. Angal, HOD (E&TC) and Prof. Shrishailya Patil , welcomed all participants and faculty .

They congratulated all participants for their active participation.

In this visit participants showed huge interest, enthusiasm, a feeling of joy and made students feel comfortable.

To start a visit, the Principal interacted with the students of our college and orphanage. Student event coordinators Miss. Anushka Umale (CS) and Mr. Uddhav Gavandi announced all rule and regulation of event and then visit started enthusiasm.

The two words "Orphans" and "Underprivileged people" came to mind as the students of Bhivarabai Sawant Institute of Technology and Research, College experienced that children, old and young, come before us but sometimes their daily life is not there. Jayavant Shikshan Prasarak Mandal's Bhivarabai Sawant Institute of Technology and Research under the student-centric initiative SPICES (SPICES) approved by All India Council of Technical Education. A helping hand and goodwill gift to Nomadic Castes and Tribes Education Institute by Research, Wagholi College was given. When the word Orphanage is uttered, the feeling of sadness automatically comes to mind and it may be a child without parents, but today the definition of the word Orphanage is not limited to that. In fact, it has expanded to a society plagued by poverty and conditions. And to show moments of happiness in the lives of such children, some children were selected by the college. This team of students is a social club. This institute is nearby and takes less time to reach there. Everyone reached there by bus and alighted, all were shown the strong and study buildings of the institution.

सामाजिक बांधिलकी जपत जे.एस.पी.एम. च्या भिवराबाई सावंत इन्स्टिट्यूट ऑफ टेक्नॉलॉजी अँड रिसर्च कॉलेज तर्फे  
आश्रमशाळेला भेट

दिनांक : 05 March २०२३

स्थळ : वाघोली

"अनाथ " व "परिस्थितीने गांजलेले लोक " हे दोन शब्द डोळ्यांसमोर आले की आपल्यासमोर वयस्कर व तरुण मुले येतात पण कधी त्यांचे रोजचे आयुष्य येत नाही . ह्याचा अनुभव भिवराबाई सावंत इन्स्टिट्यूट ऑफ टेक्नॉलॉजी अँड रिसर्च, कॉलेजच्या विद्यार्थ्यांना आला.

ऑल इंडिया कारुन्सिल ऑफ टेक्निकल एज्युकेशन या परिषदे च्या मान्यतेनुसार स्पाइस (SPICES) या विद्यार्थी केंद्रित उपक्रमांतर्गत जयवंत शिक्षण प्रसारक मंडळाच्या भिवराबाई सावंत इन्स्टिट्यूट ऑफ टेक्नॉलॉजी अँड रिसर्च, वाघोली ह्या कॉलेज तर्फे भटक्या विमुक्त जाती व जमाती शिक्षण संस्थेला मदतीचा हात व सदिच्छा भेट देण्यात आली . अनाथाश्रम ह्या शब्दाचा उच्चार झाला की मनात दुःखाचा भाव आपोआप येतो आणि समोर येत ते आईबापाविना असेलेल लहान पोर पण आजच्या काळात अनाथाश्रम ह्या शब्दाची व्याख्या तेवढीच मर्यादित राहिलेली नाही , किंबहुना ती समाजाने, दारिद्र्याने आणि परिस्थितीने ग्रासलेले अशी विस्तारली आहे . आणि अश्या मुलांच्या जीवनात सुखाचे , आनंदाचे क्षण पेरता यावे या साठी कॉलेज तर्फे काही मुले निवडली होती. या मुलांची टीम म्हणजे एक सामाजिक सोशल क्लब आहे . ही संस्था जवळच आहे आणि तिथे पोहोचायला वेळही कमी लागणार लागतो. सर्वजण तिथे बस ने पोहोचलो आणि उतरल्या उतरल्या सर्वांना मजबूत व भक्कम अश्या संस्थेच्या इमारती निदर्शनास आल्या.ह्या इमारती १९७० च्या दशकात पाहिलेल्या स्वप्नातून सत्यात आल्या.१९७० च्या दशकात स्वातंत्र्योत्तर काळात चळवळीने प्रेरित झालेल्या अनेक समाजसुधारकांपैकी एक , शिवलाल अंबाजी जाधव म्हणजेच या संस्थेचे संस्थापक यांनी वंचित, भटक्या विमुक्त जाती व जमातीतील लोकांसाठी कार्य केले.त्यांनी या सर्वांसाठी एकत्रित शिक्षणाची संकल्पना मांडून सत्यात उतरवली.म्हणूनच आज विविध समाजघटक एकत्रित एका छताखाली सोबत शिक्षण घेतात.या संस्थेच्या वाघोली, पाबळ या ठिकाणी आश्रमशाळा आहेत. वाघोलीच्या या आश्रमशाळेचा विस्तार खूपच मोठा आहे,जवळपास २७० विद्यार्थी एकाचवेळी पहिली ते दहावीपर्यंत इथे शिक्षण घेतात. विविध प्रकारची खेळाची मैदाने आणि त्यांना लागून असणाऱ्या वेगळ्या वेगळ्या इमारती, प्रत्येकाची रचना अशी केलेली होती की मुलांना सहजासहजी नजरेस पडेल. तिथे सर्वांच्या स्वागताला मुलांचे संगोपन करणारे अधीक्षक श्री.गायकवाड सर आधीच येऊन थांबलेले होते.त्यांनी डॉ.योगेश अनगळ सरांचे स्वागत करून सर्वांचे आभार मानले. सरांनी सर्वांना परिसराची ओळख करून द्यायला सुरुवात केली .भटक्या विमुक्त जाती व जमाती शिक्षण संस्थेच्या विविध इमारती आहेत.गायकवाड सर माहिती देत होते व सगळेजण माहिती लिहून घेत होते.सर सांगत होते की, संस्थेच्या शाळेला सर्वकाही दानशूर व्यक्तींनी व मोठ्या कंपन्यांनी सर्वतोपरी मदत केलेली आहे.आणि कोरोनाच्या काळात सुद्धा मुलांसाठी ह्या शाळेने हाल सोसत दिवस काढले आणि पुन्हा उभारी घेऊन उभी राहिलेली आहे.

सर्व माहिती जाणून घेतल्यावर सगळे मंथन क्लब चे सदस्य मुलांना भेटायला निघाले. मुलांना पाहताक्षणी सर्व अचंबित झाले कारण एवढी नम्र,गुणी मुले समोर बसलेली होती.सर्वांचे स्वागत टाळ्यांच्या गजरात करण्यात आले. मुलांशी मनमोकळे पणाने संवाद साधता यावा यासाठी विविध खेळांचे आयोजन करण्यात आले.गायनाची स्पर्धा व नृत्याची स्पर्धा घेण्यात आली.विजेत्यांना बक्षिसाच्या रूपात पेन व खाऊ देण्यात आला. मुलांना बक्षीस जिंकण्यापेक्षा सहभाग घेण्यात जास्त रस होता.सदस्यांनी खूप आपुलकीने सर्व मुलांची विचारपूस केली आणि मुलांना देखील आपल्या बद्दल कोणी एवढ्या आपुलकीने विचारत आहे हे पाहून समाधान वाटले.ह्या खेळीमेळीच्या व गप्पागोष्टींच्या वातावरणात दुपारची संध्याकाळ कधी झाली कोणाला कळलीही नाही.संध्याकाळी मुले जोशात खेळ खेळत होती.त्या

गाळेच्या क्रीडांगणाचे विविध मैदानी भाग केले होते, ज्यात मुले मंथनच्या सदस्यांसोबत क्रिकेट, व्हॉलीबॉल, खोखो, कबड्डी खेळण्यात मग्न होती. लहान वयात खेळाडू वृत्तीची जोपासना व सांघिक कौशल्य मुलांच्या अंगी बाणवण्यासाठी सर्व मंथन चे सदस्य प्रयत्न करत होते आणि खेळ शिकवत होते.

संध्याकाळ जशी जशी होऊ लागली तशी मुले खेळून खेळून दमू लागली. त्यांची थोड्याच वेळात जेवणाची वेळ झाली म्हणून हात पाय धुवून सगळे जमले. त्यांना भेटायला येताना फूल ना फुलाची पाकळी म्हणून मंथन कडून सर्व २७० मुलांना गोडाचे जेवण देण्यात आले. मुलेही पोटभर जेवली आणि त्यांच्या चेहऱ्यावर समाधान दिसून आले. अन्न हे परब्रम्ह आहे हे त्यांच्या चेहऱ्यावर दिसत होते. त्यांचे ते भाव पाहून सर्व आनंदी झाले. सरते शेवटी दिवस संपता संपता एका मुलाचा वाढदिवस साजरा करण्यात आला. आपल्या मित्राचा वाढदिवस साजरा होताना पाहून सर्व मुले कडकडून टाळ्या वाजवत होती.

मुलांच्या आयुष्यात एक चांगली आठवण देऊ शकलो याचे सर्वांना जाता जाता समाधान व एवढ्या गोजिरवाण्या मुलांना सोडून जाताना दुःख ही वाटले. त्यांचे "दादा, तुम्ही पुन्हा आम्हाला भेटायला कधी येणार?" ह्या वाक्याला, "नक्कीच येऊ या महिन्यात परत!" असे आश्वासन देताना सर्वांचे डोळे पाणावले.

जे.एस.पी.एम. च्या भिवराबाई सावंत इन्स्टिट्यूट ऑफ टेक्नॉलॉजी अँड रिसर्च कॉलेज तर्फे स्पाईस या विद्यार्थी कृत उपक्रमा अंतर्गत "अनाथाश्रमाला भेट" ह्या स्तुत्य उपक्रमाचे जे.एस.पी.एम. चे विद्यमान संचालक डॉ. ऋषिराज सावंत सर, जे.एस.पी.एम. वाघोली चे कॅम्पस डायरेक्टर डॉ. सचिन आदमाने सर, कॉलेजचे प्राचार्य डॉ. टी.के.नागराज सर, उपक्रम समन्वयक डॉ. योगेश अनगळ सर आदींनी कौतुक केले. बाबा आमटे सोशल क्लब चे अनुष्का उमाळे, एकाग्र धमानी, आशुतोष फळेगावकर, गौरव ठाकूर, चैत्रा देशपांडे, उद्धव गवंडी, प्रमोद ढेपे, ओंकार भोकरे, ऐश्वर्या गोळे, इ. विद्यार्थ्यांचे ह्या अभिनव उपक्रमा बद्दल अभिनंदन केले.

One step towards dream come true

TODAY She is bright. There is a luster in her eyes for her purpose ..... Herself a bright, strong, like the sun to her..... Moves like us, many stars in the sky.....

8 March

Renowned space explorer and space scientist from NASA Honeywell, Pune, under the All India Council of Technical Education Society sanctioned SPICES student centric initiative for female students of JSPM's Bhivarbai Sawant Institute of Technology College, on the occasion of International Women's Day. i. E.T.E. The honorary member of this association is the founder of the Astro Agee organization and recipient of Krantijyoti Savitribai Phule education award. One step towards dream fulfillment is an enlightening lecture

by Lena Bokil Madam was organized. International Women's Day started with a badminton tournament full of agility in the college. The girls responded enthusiastically. Everyone got to see a great response and enthusiasm on the occasion of this badminton tournament. Badminton tournament was strictly organized and managed • by Armaan Shaikh Prathamesh Ilag, representative of Manthan Sports Club.

Manthan Social Club Lead- Anushka Umale organized a chess tournament in Computer Department under the guidance of Professor Madhavi Kulkarni. In which the girls responded strongly. On the occasion of International Women's Day, a lecture was organized by Manthan Social Club at exactly 1 pm. The program was chaired by Smt. Played by Lena Bokil. She was felicitated by the head of the computer department. Gayatri Bhandari madam and churning club member Miss Aishwarya Hargude. She described the adverse situation of women in earlier times and the innovations of today.

Explained the difference between change. She said, "Unknowing social inequality in India leaves girls' dreams unfulfilled. We need to give them a new vision to dream. When we compete with others, more time is wasted. If we spend the same time on ourselves, We will go a long way," she said. "Today, women have won in all fields, but still in science

" She explained that from India to NASA and the world at large. Inspirational example of the great woman astronaut Kalpana Chawla who made India proud given "Kalpana Chawla's" short film revealed his tough journey. The entire journey was shown together in a short film that started with the background song "Prerna Te Kalpana". If the vision is clear, dreams also come true, life becomes truly rewarding. It gives a valuable message that how we proved our years of practice by facing new challenges keeping the dream of the nation in front of us and encouraging us along the way. A true story of an eight-nine-year-old girl who dreams of becoming an aviator and how she fulfills her dream by crossing the tough obstacles in the journey from pilot to astronaut. Space is an interesting and profound subject and she explained it in simple language. India's progress in the space sector is a golden age. India's dream to go into space and its foundation Dr. Homi Bhabha and Dr. It was due to Vikram Sarabhai's hard work. As a result, we have taken leaps and bounds, surpassing all the fellow countries in this field today. After Chandrayaan-1, India reached a great height. Be it successfully landing Mars in its first attempt or launching 104

Future of India Aditya L-1. The information about Chandrayaan-2 Shukrayaan etc. projects was presented very extensively. He also mentioned that Esi is always making efforts in terms of women empowerment. Girls should always keep learning new things. He appealed to adopt a brave attitude. • Our organization works to provide financial support to girls for education. Her speech reflected her ideology that girls can conquer the world if they stand on their own feet. New Generation Sunita Williams Kalpana Chawla, Rakesh Sharma, Vikram Sarabhai and Homi Bhabha . One should take inspiration from Dr. A.P.J.Abdul Kalam. You have to fulfill your own dreams for the education of girls. Kalpana Chawla International Scholarship is awarded so that maximum number of girls can enter the field and fulfill their dream of doing research in Astronomy, Space. Dr. Lena Bokiel said, "People think that space research is a very difficult field but if you put your passion into it, nothing is impossible and I believe that anyone can enter and work in this field". Most of the girls are inspired by women

She also appealed to work with a goal in mind. She gave a simple summary in his lecture that the doors of science are always open and women should enter it and enrich science
